UNIT 8 · STANDARD 6.AT.8

Equations and Inequalities Problem Solving

Lesson 8-7

Name: Type your name **Date:** Today's date **Class:** Class period

My Notes Level 1 Support

🎯 **TODAY'S OBJECTIVES**

Content Objective: I can model and solve real-world problems using equations and inequalities.
Language Objective: I can explain my reasoning using the words model, equation, inequality, and reasonableness.

📖 See **Learn It** for the explanation and worked examples, and the **Vocab** tab for the words. These are your notes to fill in and keep.

✏️ **Fill in each blank as we go. Use the Word Bank to help you.**

📚 **WORD BANK — FILL EACH BLANK WITH THE BEST WORD**

Equations and Inequalities Problem Solving | **Model** | **Equation** | **Inequality** | **Reasonableness** | **Variable** | **Constraint**

👆 *Tap any word to see what it means and a picture.*

1. __________ — Use an equation for one exact value or an inequality for a range of values in a real situation.

2. A drawing, equation, or diagram that represents a situation is a __________.

3. A math sentence with an equal sign is an __________.

4. A math sentence that compares values with <, >, ≤, or ≥ is an __________.

5. Checking whether an answer makes sense for the problem is checking its __________.

6 A letter that stands for the unknown amount in a problem is a

______________.

7 A limit that tells which values are allowed in a problem is a

______________.

Write About the Math

Guided ESOL writing

Use the support level you need. Every level answers the same math question.

1. Understand the Question

EXPLAIN

How much more can the detective spend? How much does each flashlight cost? When do you use an equation versus an inequality?

Your job: Answer the question. Use math evidence. Explain how the evidence proves your answer.

Responde la pregunta. Usa evidencia matemática. Explica cómo la evidencia demuestra tu respuesta.

2. Plan Your Math Words

Check at least two words you will use.

- [ ] **Equations and Inequalities Problem Solving** — Use an equation for one exact value or an inequality for a range of values in a real situation.
  Resolución de problemas con ecuaciones y desigualdades — Usar una ecuación para un valor exacto o una desigualdad para un rango de valores en una situación real.

- [ ] **Model** — To show a real-life situation with an equation or inequality.
  Modelar — Mostrar una situación real con una ecuación o desigualdad.

- [ ] **Equation** — A math sentence with an equal sign showing both sides are the same.
  Ecuación — Una oración matemática con un signo igual que muestra que ambos lados son iguales.

- [ ] **Inequality** — A math sentence that compares two sides with <, >, ≤, or ≥.
  Desigualdad — Una oración matemática que compara dos lados con <, >, ≤ o ≥.

- [ ] **Reasonableness** — Checking if your answer makes sense.
  Razonabilidad — Revisar si tu respuesta tiene sentido.

Say it first: Say your idea to a partner or quietly to yourself before you write.
Di tu idea a un compañero o en voz baja antes de escribir.

The detective can spend at most $___ more because r ≤ 500 − ____ = ____. Each flashlight costs $___ because f = 60 ÷ ____ = ____.

Di tu respuesta primero: Mi respuesta es ____ porque ____.

3. Build Your Explanation

Model the parts: This model shows the parts of an explanation. It does not answer your writing question.

Claim: An exact total points to an equation; a limit or range points to an inequality.

Evidence: Students use signal words ('equals/total' for an equation; 'at least/at most/no more than' for an inequality) to choose the correct model.

Reasoning: This evidence connects the definition of equations and inequalities problem solving to the mathematical claim.

Start

Most language support

Complete the frames. Use the word bank.

Completa las oraciones. Usa el banco de palabras.

- **The detective can spend at most $___ more because r ≤ 500 − ____ = ____. Each flashlight costs $___ because f = 60 ÷ ____ = ____.**
- **My answer is ____.**
  Mi respuesta es ____.

Build

Some language support

Write two connected sentences. Use because, so, or but.

Escribe dos oraciones conectadas. Usa porque, entonces o pero.

- **My claim is ____.**
  Mi afirmación es ____.
- **I know because ____.**
  Lo sé porque ____.
- **So ____.**
  Entonces ____.

Explain

Light language support

Write a claim, give math evidence, and explain your reasoning.

Escribe una afirmación, da evidencia matemática y explica tu razonamiento.

- **My claim is ____.**
  Mi afirmación es ____.
- **My math evidence is ____.**
  Mi evidencia matemática es ____.
- **This proves ____ because ____.**
  Esto demuestra ____ porque ____.

4. Check Your Explanation

- [ ] I answered the question.
  Respondí la pregunta.
- [ ] I used math evidence: numbers, an equation, a model, or a comparison.
  Usé evidencia matemática: números, una ecuación, un modelo o una comparación.
- [ ] I explained how the evidence proves my answer.
  Expliqué cómo la evidencia demuestra mi respuesta.
- [ ] I used at least two math words.
  Usé por lo menos dos palabras matemáticas.
- [ ] I reread complete sentences and punctuation.
  Volví a leer mis oraciones completas y la puntuación.
