

# Represent and Describe Data in a Box Plot

Lesson 2-4

**Name:** Type your name

**Date:** Today's date

**Class:** Class period

---

## My Notes

Level 2 Standard

### TODAY'S OBJECTIVES

**Content Objective:** I can make and read a box plot to summarize a data set.

**Language Objective:** I can explain my box plot using the words box plot, median, quartile, and interquartile range.

See **Learn It** for the explanation and worked examples, and the **Vocab** tab for the words. These are your notes to fill in and keep.

**Fill in each blank as we go. Use the Word Bank to help you.**

### WORD BANK – FILL EACH BLANK WITH THE BEST WORD

Display Data with Box Plots

Box Plot

Median

Quartile

Interquartile Range

Data distribution

Variability

Tap any word to see what it means and a picture.

1

A box plot shows the  -number summary: least, Q1, median, Q3, greatest.

2

A graph that shows data with a box and whiskers based on the five-number summary is a .

3

The middle value of the data, shown as a line inside the box, is the .

4

A value that divides the data into four equal parts is a .

5

The distance between the first and third quartiles, showing the middle 50% of data, is the .

6 The way data values are spread out is the  .

7 How spread out the data values are is the  .

## Write About the Math

Guided ESOL writing

Use the support level you need. Every level answers the same math question.

### 1. Understand the Question

EXPLAIN

**Which team is more consistently scoring high? Use the box plot values to support your answer?**

**Your job:** Answer the question. Use math evidence. Explain how the evidence proves your answer.

*Responde la pregunta. Usa evidencia matemática. Explica cómo la evidencia demuestra tu respuesta.*

## 2. Plan Your Math Words

Check at least two words you will use.

- ☐ **Display Data with Box Plots** — Show a data set's five-number summary in a box-and-whisker display.  
*Representar datos con diagramas de caja — Mostrar el resumen de cinco números de un conjunto de datos en un diagrama de caja y bigotes.*

- ☐ **Box Plot** — A graph that shows how data is spread using five key numbers.  
*Diagrama de caja — Una gráfica que muestra cómo se reparten los datos con cinco números clave.*

- ☐ **Median** — The middle number when you put them in order.  
*Mediana — El número del medio cuando los pones en orden.*

- ☐ **Quartile** — Numbers that split the data into four equal parts.  
*Cuartil — Números que dividen los datos en cuatro partes iguales.*

- ☐ **Interquartile Range** — The spread of the middle half of the data ( $Q_3 - Q_1$ ).  
*Rango intercuartílico — La extensión de la mitad central de los datos ( $Q_3 - Q_1$ ).*

**Say it first:** Say your idea to a partner or quietly to yourself before you write.

*Di tu idea a un compañero o en voz baja antes de escribir.*

**Team A's IQR is \_\_\_\_ and Team B's IQR is \_\_\_\_.** **Team B's middle 50% scores between \_\_\_\_ and \_\_\_\_.** **The fan is wrong because \_\_\_\_.** **The box plot shows that Team B is more consistent because its  $Q_1$  and median are higher and its IQR (10) is smaller, while \_\_\_\_.**

*Di tu respuesta primero: Mi respuesta es \_\_\_\_ porque \_\_\_\_.*

### 3. Build Your Explanation

**Model the parts:** This model shows the parts of an explanation. It does not answer your writing question.

**Claim:** A box plot is built from the minimum, Q1, median, Q3, and maximum.

**Evidence:** Students name the five-number summary (min, Q1, median, Q3, max) and find the median (14) for the 11 ordered scores.

**Reasoning:** This evidence connects the definition of box plot to the mathematical claim.

#### Start

##### Most language support

Complete the frames. Use the word bank.

*Completa las oraciones. Usa el banco de palabras.*

- Team A's IQR is \_\_\_\_ and Team B's IQR is \_\_\_\_ . Team B's middle 50% scores between \_\_\_\_ and \_\_\_\_ . The fan is wrong because \_\_\_\_ . The box plot shows that Team B is more consistent because its Q1 and median are higher and its IQR (10) is smaller, while \_\_\_\_ .

- My answer is \_\_\_\_ .

*Mi respuesta es \_\_\_\_ .*

---

---

---

#### Build

##### Some language support

Write two connected sentences. Use because, so, or but.

*Escribe dos oraciones conectadas. Usa porque, entonces o pero.*

- My claim is \_\_\_\_ .

*Mi afirmación es \_\_\_\_ .*

- I know because \_\_\_\_ .

*Lo sé porque \_\_\_\_ .*

- So \_\_\_\_ .

*Entonces \_\_\_\_ .*

## Explain

### Light language support

Write a claim, give math evidence, and explain your reasoning.

*Escribe una afirmación, da evidencia matemática y explica tu razonamiento.*

- **My claim is \_\_\_\_.**  
*Mi afirmación es \_\_\_\_.*
- **My math evidence is \_\_\_\_.**  
*Mi evidencia matemática es \_\_\_\_.*
- **This proves \_\_\_\_ because \_\_\_\_.**  
*Esto demuestra \_\_\_\_ porque \_\_\_\_.*

## 4. Check Your Explanation

- ☐ I answered the question.  
*Respondí la pregunta.*
- ☐ I used math evidence: numbers, an equation, a model, or a comparison.  
*Usé evidencia matemática: números, una ecuación, un modelo o una comparación.*
- ☐ I explained how the evidence proves my answer.  
*Explicué cómo la evidencia demuestra mi respuesta.*
- ☐ I used at least two math words.  
*Usé por lo menos dos palabras matemáticas.*
- ☐ I reread complete sentences and punctuation.  
*Volví a leer mis oraciones completas y la puntuación.*
