

3-3 Graph Ratio Tables

Culinary Academy | Standard: 6.RP.3a | Color-by-Number Practice

Learning Goal: I can graph the values from a ratio table as points on the coordinate plane.

Directions: Solve each problem. Match each answer to the Color Code. On the next page, color every box with that problem number using the matching color.

Vocabulary: ordered pair, x-value, y-value, ratio table

Explain one: I solved problem ___ by ___. Because ___, my answer is ___.
