PREP LEVEL Light — print integer card sets and number lines

Learning goal *I can compare and order integers using a number line.*

Teacher setup

- Print one shuffled card set per team. Teams race to order the integers least to greatest.
- Each round adds a number-line explanation card.
- Use decimals or fractions only as an extension.

Materials

Integer card sets, Number lines, Comparison symbols, Pencil.

Differentiation & language support

- Number line shows that left = less, right = greater (SPED).
- Sentence stem: “___ is less than ___ because it is to the left on the number line.”
- ESOL: read negatives as “below zero.”

Key vocabulary (English / Español):

Your goal: *I can compare and order integers using a number line.*

What you need

Integer cards, Number lines.

How to play

1. Take a card with a set of integers.
2. Place them on the number line.
3. Order them least to greatest.
4. Explain one comparison using the number line.

Ordering Cards

On a number line, numbers to the left are less and numbers to the right are greater.

1. Order: -3, 5, 0, -7, 2	2. Order: -4, -9, -1
3. Order: 6, -6, 3, -3	4. Order: -10, 10, 0, -5
5. Which is greater: -2 or -8?	6. Which is less: -1 or 1?
7. Order: -5, -2, -8, -1	8. True or false: $-3 > -7$?

Record your work (ordered list + one comparison):

Explain your thinking

Explain why -8 is less than -2, even though 8 is greater than 2.

Sentence frame: ___ is less than ___ because it is to the ___ on the number line.

★ **Challenge:** Order these including a fraction: -2 , $\frac{1}{2}$, -1 , 0 . (-2 , -1 , 0 , $\frac{1}{2}$)
