

Interpret Division of Fractions

Lesson 2-1

Name: Type your name **Date:** Today's date **Class:** Class period

My Notes

Level 3 Enrichment

TODAY'S OBJECTIVES

Content Objective: I can use models to interpret what it means to divide by a fraction.

Language Objective: I can explain a fraction division using the words dividend, divisor, quotient, reciprocal, and unit fraction.

See **Learn It** for the explanation and worked examples, and the **Vocab** tab for the words. These are your notes to fill in and keep.

Fill in each blank as we go. Use the Word Bank to help you.

WORD BANK — FILL EACH BLANK WITH THE BEST WORD

Dividend

Divisor

Quotient

Reciprocal

Unit fraction

Tap any word to see what it means and a picture.

Level 3: try the blanks from memory first, then check the bank.

1

In $6 \div 1/2$, the number 6 being divided is the .

2

In $6 \div 1/2$, the number $1/2$ we divide by is the .

3

The answer to a division problem is the .

4

The fraction you get by flipping the numerator and denominator is the

.

5

A fraction with a numerator of 1, like $1/5$, is a .

Write About the Math

Guided ESOL writing

Use the support level you need. Every level answers the same math question.

1. Understand the Question

EXPLAIN

What does $3 \div 1/4$ actually mean? Show your partner with the bar model?

Your job: Answer the question. Use math evidence. Explain how the evidence proves your answer.

Responde la pregunta. Usa evidencia matemática. Explica cómo la evidencia demuestra tu respuesta.

2. Plan Your Math Words

Check at least two words you will use.

☐ **Dividend** — The number you are splitting up in a division problem.
Dividendo — El número que estás repartiendo en una división.

☐ **Divisor** — The number you split by in a division problem.
Divisor — El número entre el que divides en una división.

☐ **Quotient** — The answer when you divide.
Cociente — La respuesta cuando divides.

☐ **Unit fraction** — A fraction with 1 on top, like $1/4$.
Fracción unitaria — Una fracción con 1 arriba, como $1/4$.

☐ **Reciprocal** — A fraction turned upside down.
Recíproco — Una fracción volteada de arriba abajo.

Say it first: Say your idea to a partner or quietly to yourself before you write.

Di tu idea a un compañero o en voz baja antes de escribir.

Dividing 3 by $1/4$ means finding how many ____ fit into ____.

Dividir 3 entre $1/4$ significa encontrar cuántos ____ caben en ____.

3. Build Your Explanation

Model the parts: This model shows the parts of an explanation. It does not answer your writing question.

Claim: There will be more than 3 sections because each piece is smaller than a whole foot.

Evidence: Students reason that dividing by a number less than 1 gives a quotient greater than the dividend, so there are more than 3 sections.

Reasoning: This evidence connects the definition of dividend to the mathematical claim.

Start

Most language support

Complete the frames. Use the word bank.

Completa las oraciones. Usa el banco de palabras.

- **Dividing 3 by $\frac{1}{4}$ means finding how many ____ fit into ____.**

Dividir 3 entre $\frac{1}{4}$ significa encontrar cuántos ____ caben en ____.

- **My bar model shows ____ fourths, so the quotient is ____.**

Mi modelo de barras muestra ____ cuartos, así que el cociente es ____.

Build

Some language support

Write two connected sentences. Use because, so, or but.

Escribe dos oraciones conectadas. Usa porque, entonces o pero.

- **My claim is ____.**

Mi afirmación es ____.

- **I know because ____.**

Lo sé porque ____.

- **So ____.**

Entonces ____.

Explain

Light language support

Write a claim, give math evidence, and explain your reasoning.

Escribe una afirmación, da evidencia matemática y explica tu razonamiento.

- **My claim is ____.**
Mi afirmación es ____.
- **My math evidence is ____.**
Mi evidencia matemática es ____.
- **This proves ____ because ____.**
Esto demuestra ____ porque ____.

4. Check Your Explanation

- ☐ I answered the question.
Respondí la pregunta.

- ☐ I used math evidence: numbers, an equation, a model, or a comparison.
Usé evidencia matemática: números, una ecuación, un modelo o una comparación.

- ☐ I explained how the evidence proves my answer.
Explicué cómo la evidencia demuestra mi respuesta.

- ☐ I used at least two math words.
Usé por lo menos dos palabras matemáticas.

- ☐ I reread complete sentences and punctuation.
Volví a leer mis oraciones completas y la puntuación.
