

Name _____ Date _____ Period _____

LESSON 2-1 • SESSION 1 • GUIDED NOTES

Statistical Questions

Learning target – I can tell whether a question is statistical by deciding if the answers will vary. • 6.SP.A.1

WORDS TO KNOW

fill in the missing words

WORD	WHAT IT MEANS	EXAMPLE
statistical question <i>pregunta estadística</i>	A question whose answers are expected to ____.	How many pets does each student have?
variability <i>variabilidad</i>	How _____ the answers in a data set are.	0, 2, 5, 1 pets
data <i>datos</i>	Facts or _____ you collect to answer a question.	6, 8, 9 hours of sleep

KEY IDEA

complete each sentence

- A statistical question expects answers that _____, so you collect data to answer it.
- A question with one _____ answer is not statistical, even if the answer is a _____.

WORKED EXAMPLE

fill in the blanks as we solve

Is “How many minutes does each student ride the bus?” a statistical question?

Step 1 Who answers? _____ student.

Step 2 Will the answers differ? Yes: 5, 12, 25 minutes, so the answers _____.

Answer The question is _____.

YOU TRY

use the example as a model

1. Write S (statistical) or N (not statistical).
 - a. How many days are in May? _____
 - b. How tall is each player? _____
2. “How tall is our classroom door?” is not statistical. Rewrite it so the answers vary.

New question _____

SUM IT UP

in your own words

A question is statistical when ____ because ____.

LESSON 2-1 • SESSION 2 • GUIDED NOTES

Dot Plots and Shape

Learning target – I can build a dot plot and describe the shape of the data it shows. · 6.SP.B.4

WORDS TO KNOW

fill in the missing words

WORD	WHAT IT MEANS	EXAMPLE
dot plot <i>diagrama de puntos</i>	A number line with one ____ for each data value.	3 dots above 2 = three 2s
peak <i>pico</i>	The ____ stack; it shows the most common value.	tallest stack above 5
symmetric <i>simétrico</i>	The left and right sides of the plot ____.	stacks 1, 3, 5, 3, 1
skewed <i>sesgado</i>	The data has a long ____ on one side.	tail to the right: skewed right

KEY IDEA

complete each sentence

- Repeated values ____ up, so the total number of dots equals the number of ____.
- A plot is named for its ____: a tail to the left means skewed left.

WORKED EXAMPLE

fill in the blanks as we solve

Six friends ate 4, 5, 5, 6, 5, 7 grapes. Make a dot plot.

Step 1 Draw a line from 3 to 8 and label each whole number.

Step 2 Stack one dot per friend: ____ dots above 5.

Step 3 The peak is at ____; there are ____ dots in all.

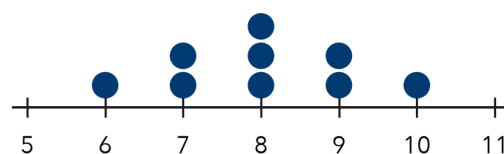

Answer Most common value: ____ grapes

YOU TRY

use the example as a model

1. The plot shows quiz scores. Name the most common value and the shape.

Peak; shape _____

Quiz Scores

2. A dot plot has stacks of 2, 4, 1 and 3 dots.

a. Number of values: _____

b. Tallest stack: _____

SUM IT UP

in your own words

A dot plot shows ____, so I can see ____.
