

LESSON 4-1 • SESSION 1 • PRACTICE • FORM A**Percent Means Per Hundred**

Learning target – I can write a ratio as a percent by finding the equivalent ratio out of 100. · 6.RP.A.3c

REMEMBER

- **Percent** means **per hundred**. The whole is always **100%**.
- Multiply the part **and** the whole by the same number to get a whole of 100: 3 out of 4 = 75 out of 100 = 75%.
- If the whole does not go into 100, simplify first: 6 out of 15 = 2 out of 5 = 40%. The part and the rest add to 100%.
