

LESSON 4-1 • SESSION 2 • PRACTICE • FORM A

Percents Greater Than 100%

Learning target – I can use percents greater than 100% to describe an amount larger than the whole. • 6.RP.A.3c

REMEMBER

- **100%** is one whole. More than 100% means **more than one whole**. Always name the whole.
- Find 10% of the whole, then count tens: if the whole is 20, 10% is 2, so 30 is 15 tens = 150%.
- "3 times as much" is **300%**. 130% means 1.3 times as much.

WORKED EXAMPLE

A puppy weighed 5 lb last month. Now it weighs 8 lb. Last month is the whole.

Step 1 Whole: 5 lb = 100%.

Step 2 1 lb = $100\% \div 5 = 20\%$.

Step 3 8 lb = $8 \times 20\% = 160\%$.

Answer 8 lb is **160% of last month's weight**

WORDS the whole (*el todo*) • times as much (*veces más*) • greater than 100% (*mayor que 100%*)

PRACTICE

show your work • label units

1. Write each amount as a percent of the whole.

a. 4 times as much = ____ %

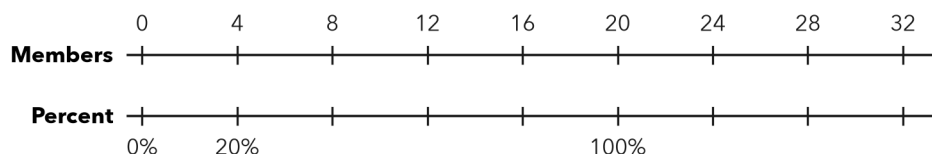

b. 1.5 times as much = ____ %

c. 2.5 times as much = ____ %

d. 1.2 times as much = ____ %

2. **Book Club.** A book club had 20 members last year (the whole). This year it has 32 members. Fill in the double number line. Write this year as a percent of last year.

Hint 4 members is 20% of 20.

This year _____ %

3. **Practice Minutes.** Cole practiced piano 40 minutes on Monday and 50 minutes on Tuesday.

a. Tuesday as a % of Monday: _____ %

b. Monday as a % of Tuesday: _____ %

4. **Jump Rope.** Deshawn jumped 50 times on Monday (the whole) and 90 times on Friday. Friday is what percent of Monday?

Hint 10% of 50 is 5. Count the 5s up to 90.

Show your work.

Answer _____ %

5. **Video Views.** A first video got 500 views. A second video got 1,100 views. The second is what percent of the first?

Show your work.

Answer _____ %

6. **Recipe Doubling.** Rosa doubles a muffin recipe. She says the new batch is 2% of the first batch. Correct her claim.

Show your work.

Answer _____ %

7. **Bean Plant.** A bean plant grew from 12 cm (the whole) to 18 cm in one week. The new height is what percent of 12 cm?

Hint $18 \div 12$ tells how many times as tall.

Show your work.

Answer _____ %

8. **Plant Growth.** A seedling was 12 cm tall in May and 30 cm tall in July. May is the whole.

- a. July height as a percent of May height: _____ %
- b. By what percent did the height increase? _____ %
- c. How are your two answers different? _____

Show your work.

FIND THE ERROR

explain the mistake, then fix it

9. **Marcus’s Work.** A large pumpkin weighs 16 kg; a small one weighs 10 kg. Marcus wrote, “The large pumpkin is 16% of the small one.” Explain his mistake and fix it.

TEST PRACTICE

choose the best answer

10. 3 times as much is the same as –
A 3% B 300% C 30% D 103%
11. 24 is what percent of 20?
A 4% B 24% C 104% D 120%

SELF-CHECK CODE

find your answer · copy its letter into that problem’s box · spell a math word

220% T	125% R	160% G	180% A	250% E	90% Z	80% E	16% Q	150% R	10% X
#2		#3a		#3b		#4		#5	

CHECK YOURSELF ☐ I can do this on my own ☐ I need a little help ☐ I have a question about #_____
