

LESSON 4-4 • SESSION 2 • PRACTICE • FORM B

Compare Percents

Learning target – I can compare two records fairly by converting each one to a percent. · 6.RP.A.3c

REMEMBER

- A percent compares a part to **its own whole**. Counts alone are unfair when the wholes differ.
- Change each record to a percent: $21/28 = 0.75 = 75\%$. If needed, keep the decimal: $5/8 = 62.5\%$.
- **Percentage points:** $90\% - 50\% = 40$ points apart. Equal percents are a tie.

WORKED EXAMPLE

Mia made 21 of 28 shots. Leo made 16 of 20. Who has the better rate?

Step 1 Mia: $21 \div 28 = 0.75 = 75\%$ **Step 2** Leo: $16 \div 20 = 0.80 = 80\%$ **Step 3** $80\% > 75\%$ **Answer** Leo, even though Mia made more shots**WORDS** part-to-whole ratio (*razón de parte a todo*) · common whole (*todo común*) · compare (*comparar*)**PRACTICE**

show your work · label units

1. Write each record as a percent.

- a.** 17 out of 20 = ____ % **b.** 9 out of 15 = ____ % **c.** 21 out of 28 = ____ %
- d.** 19 out of 25 = ____ % **e.** 14 out of 20 = ____ % **f.** 35 out of 50 = ____ %

2. Free Throw Contest. Complete the table. Who is the best shooter?**Hint** Simplify each fraction, then scale it to hundredths.

Player	Made	Shots	Percent
Amir	21	28	
Bea	27	45	
Cole	34	40	

3. Recycling. Class C recycled 27 of its 30 cans. Class D recycled 36 of its 40 cans.

- a.** Each class as a percent _____
- b.** Which is greater, or is it a tie? _____

4. Club Days. On Tuesday, 45 of 60 club members came. On Thursday, 44 of 55 came.

- a.** Percent present each day _____
- b.** Which day had better turnout? _____

5. Shooting Stats. Jada made 14 of her 16 shots. Ken made 18 of his 20 shots. Write each record as a percent. Who had the better rate?**Hint** $14/16 = 7/8$, and $7 \div 8 = 0.875$.

Show your work.

Better rate _____

6. **Survey Claim.** Out of 40 votes, 28 people said yes. Mae says that is 28%. Is she right? Find the correct percent.

Hint Compare 28 to the total votes, not to 100.

Show your work.

Percent _____

7. **Reading Pace.** Lia has read 72 of her 80 pages. Sam has read 33 of his 60 pages. Find each percent. How many percentage points apart are they?

Hint $33/60 = 11/20$.

Show your work.

Points apart _____

8. **Three Classes.** Class 1 recycled 24 of 30 items. Class 2 recycled 42 of 60. Class 3 recycled 35 of 50.

- a. Write each record as a percent. _____
b. Rank the classes from best to worst. _____
c. Class 2 recycled the most items. Why is it not in first place?

FIND THE ERROR

explain the mistake, then fix it

9. **Rae's Work.** Rae says 30 out of 60 is better than 20 out of 25 because 30 is more than 20. Explain her mistake. Then compare correctly.

TEST PRACTICE

choose the best answer

10. 24 out of 30 as a percent is –
A 24% **B** 30% **C** 80% **D** 54%
11. Which is better: 9 out of 10 or 17 out of 20?
A 9 out of 10 **B** 17 out of 20 **C** They are equal. **D** You cannot tell.

SELF-CHECK CODE

find your answer · copy its letter into that problem's box · spell a math word

70% R	Tuesday X	28% Q	tie E	Thursday C	Cole R	35 D	39 Z	Ken O
		#2	#3b	#4b	#5	#6	#7	

CHECK YOURSELF ☐ I can do this on my own ☐ I need a little help ☐ I have a question about #____
