

LESSON 7-1 • SESSION 1 • PREREQUISITE PRACTICE A • SKILL 1 OF 2

Read Number Line Scales

Builds on Grade 2 • 2.MD.B.6

TODAY'S LESSON

You will plot spots like 35 m above and 20 m below sea level on one number line.

YOU NEED TO

Find how much each jump is worth, like 0 to 40 in 8 jumps: each jump is 5.

You will use it in Practice Form A, problems 3 and 6.

STEPS TO FOLLOW*use these same steps on every problem*

- 1 Subtract** the two labels to find the gap.
- 2 Count** the equal jumps between the labels.
- 3 Divide:** gap $\div$ jumps = size of each jump.

WATCH ME*the steps in action*

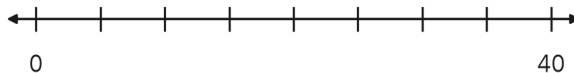

A line goes from 0 to 40 in 8 equal jumps. How much is each jump?

Step 1 $40 - 0 = 40$

Step 2 There are 8 jumps.

Step 3 $40 \div 8 = 5$. Each jump is 5.

Answer 5

**TRY IT WITH HELP***fill in each step*

- 1.** A line goes from 0 to 100 in 10 equal jumps. How much is each jump?

Step 1 $100 - 0 = \underline{\hspace{2cm}}$

Step 2 There are $\underline{\hspace{2cm}}$ jumps.

Step 3 $100 \div 10 = \underline{\hspace{2cm}}$

- 2.** A line goes from 0 to 60 in 3 equal jumps. How much is each jump?

Step 1 $60 - 0 = \underline{\hspace{2cm}}$

Step 2 There are $\underline{\hspace{2cm}}$ jumps.

Step 3 $60 \div 3 = \underline{\hspace{2cm}}$

YOUR TURN*use the steps on your own*

- 3.** Find the size of each jump.

a. 0 to 20 in 4 jumps $\underline{\hspace{2cm}}$

b. 0 to 50 in 5 jumps $\underline{\hspace{2cm}}$

c. 0 to 30 in 6 jumps $\underline{\hspace{2cm}}$

d. 0 to 200 in 4 jumps $\underline{\hspace{2cm}}$

e. 10 to 30 in 4 jumps $\underline{\hspace{2cm}}$

f. 0 to 12 in 6 jumps $\underline{\hspace{2cm}}$

Compare Using a Number Line

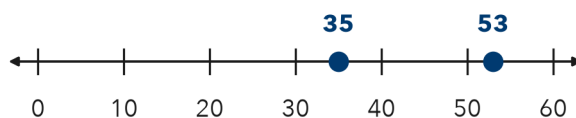

Builds on Grade 4 • 4.NBT.A.2

TODAY'S LESSON

You will plot 7 under par and 7 over par. One sits left of 0, one sits right.

YOU NEED TOKnow that the number farther right on a number line is greater. **You will use it in Practice Form A, problems 3 and 6.****STEPS TO FOLLOW***use these same steps on every problem*

- 1** Find **both numbers** on the number line.
- 2** The number farther **right** is greater.
- 3** Write $<$ or $>$. The open side faces the greater number.

WATCH ME*the steps in action***Compare 35 and 53.****Step 1** Find 35 and 53 on the line.**Step 2** 53 is farther right, so 53 is greater.**Step 3** $35 < 53$ **Answer** $35 < 53$ **TRY IT WITH HELP***fill in each step***4.** Compare 120 and 102.**Step 1** Find _____ and _____ on the line.**Step 2** Farther right: _____**Step 3** 120 _____ 102**5.** Compare 19 and 91.**Step 1** Find _____ and _____ on the line.**Step 2** Farther right: _____**Step 3** 19 _____ 91**YOUR TURN***use the steps on your own***6.** Write $<$ or $>$.**a.** $8 \underline{\hspace{1cm}} 3 \underline{\hspace{1cm}}$ **b.** $240 \underline{\hspace{1cm}} 204 \underline{\hspace{1cm}}$ **c.** $47 \underline{\hspace{1cm}} 74 \underline{\hspace{1cm}}$ **d.** $150 \underline{\hspace{1cm}} 105 \underline{\hspace{1cm}}$ **e.** $86 \underline{\hspace{1cm}} 68 \underline{\hspace{1cm}}$ **f.** $15 \underline{\hspace{1cm}} 51 \underline{\hspace{1cm}}$ **READY CHECK***a problem like the one in today's lesson***7.** Camp is at 15 m. Ridge Point is at 35 m. Which is farther right on a number line?**A** 15**B** 35**C** the same place**D** 0**CHECK YOURSELF**
☐ I can do this on my own
 ☐ I need a little help
 ☐ I have a question about #_____
