

LESSON 7-2 • SESSION 1 • GUIDED NOTES**Rational Numbers on a Number Line**

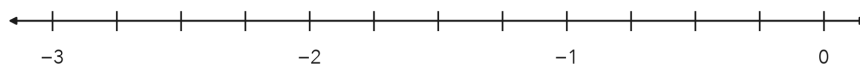

Learning target – I can plot a rational number and its opposite on a number line. • 6.NS.C.6c

WORDS TO KNOW*fill in the missing words*

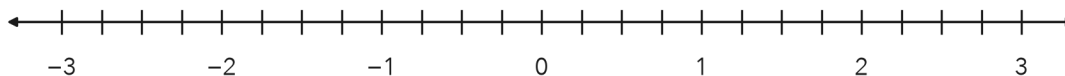

WORD	WHAT IT MEANS	EXAMPLE
rational number <i>número racional</i>	A number that can be written as a _____ of two integers.	$-3/4$, 0.5 , $7 = 7/1$
integer <i>número entero</i>	A whole number or its _____.	-3 , 0 , 5
number line <i>recta numérica</i>	A line where numbers _____ from left to right.	-2 is left of 1 , so $-2 < 1$

KEY IDEA*complete each sentence*

- To plot $7/4$, split each whole into ____ equal parts and count ____ parts from 0.
- Negative numbers sit to the ____ of 0 on a horizontal line and ____ 0 on a vertical line.

WORKED EXAMPLE*fill in the blanks as we solve*Plot -2.75 on the number line.**Step 1** -2.75 is between the integers ____ and ____.**Step 2** Split the gap between -3 and -2 into ____ equal parts (fourths).**Step 3** Start at -2 and count ____ fourths to the left.**Answer** -2.75 is one fourth to the ____ of -3 .**YOU TRY***use the example as a model*

- Plot and label -1.5 and 2.25 on the number line.

- Name the two integers each number is between.

a. -3.6 _____**b.** $5/2$ _____**SUM IT UP***in your own words*

To plot a rational number on a number line, I first ____ because ____.

LESSON 7-2 • SESSION 2 • GUIDED NOTES

Opposites of Rational Numbers

Learning target – I can find the opposite of a rational number and explain what taking the opposite twice does. · 6.NS.C.6a

WORDS TO KNOW*fill in the missing words*

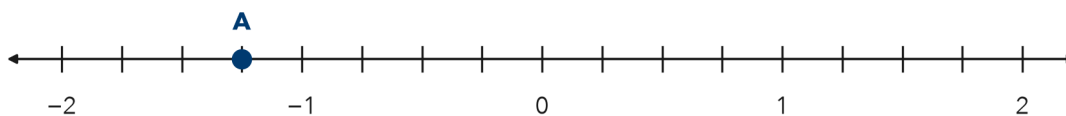

WORD	WHAT IT MEANS	EXAMPLE
opposites <i>opuestos</i>	Two numbers the same _____ from 0, on different sides of 0.	-2.5 and 2.5
opposite of the opposite <i>opuesto del opuesto</i>	Taking the opposite _____ gives back the number you started with.	$-(-3) = 3$
zero <i>cero</i>	The only number that is its _____ opposite.	the opposite of 0 is 0

KEY IDEA*complete each sentence*

- The symbol $-(-4.5)$ means the _____ of 4.5, which is -4.5 .
- The opposite of a negative number is _____.

WORKED EXAMPLE*fill in the blanks as we solve*Find $-(-5.3)$.**Step 1** -5.3 is _____ units to the left of 0.**Step 2** Its opposite is the same distance on the _____ side of 0.**Step 3** So $-(-5.3) = \underline{\hspace{1cm}}$.**Answer** $-(-5.3) = \underline{\hspace{1cm}}$ **YOU TRY***use the example as a model***1.** Find each value.

- a.** opposite of $2/9$ _____ **b.** $-(-0.6) = \underline{\hspace{1cm}}$ **c.** opposite of 0 _____

2. Point A is at -1.25 . Plot its opposite and label it B.**B** = _____**SUM IT UP***in your own words*

Taking the opposite twice gives _____ because _____.
