

LESSON 7-4 • SESSION 1 • GUIDED NOTES

Comparing Numbers on a Number Line

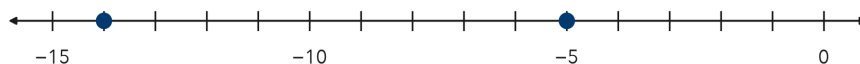

Learning target – I can compare two rational numbers using their positions on a number line. • 6.NS.C.7a

WORDS TO KNOW*fill in the missing words*

WORD	WHAT IT MEANS	EXAMPLE
greater than (>) <i>mayor que</i>	Farther to the ____ on the number line.	$3 > -6$
less than (<) <i>menor que</i>	Farther to the ____ on the number line.	$-6 < -2$
inequality <i>desigualdad</i>	A math sentence that ____ numbers using < or >.	$-8 < -5$

KEY IDEA*complete each sentence*

- On a number line, the number farther ____ is greater.
- For two negative numbers, the one closer to ____ is greater.

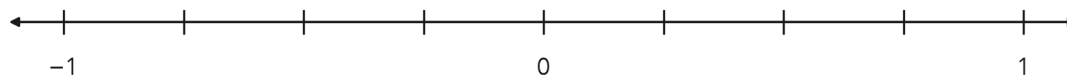

WORKED EXAMPLE*fill in the blanks as we solve*Compare the temperatures -14 degrees and -5 degrees.**Step 1** -5 is to the ____ of -14 .**Step 2** So -14 ____ -5 .**Answer** -5 is ____; -14 is colder.**YOU TRY***use the example as a model*

1. Write < or > in each blank.

a. -7 ____ -3

b. -1.5 ____ -2.5

2. Plot
- $-3/4$
- and
- $-1/4$
- . Write a true comparison using <.

Comparison _____

SUM IT UP*in your own words*

To compare two negative numbers, I ____ because ____.

LESSON 7-4 • SESSION 2 • GUIDED NOTES**Ordering Integers and Rational Numbers**

Learning target – I can order integers and rational numbers from least to greatest. · 6.NS.C.7b

WORDS TO KNOW*fill in the missing words*

WORD	WHAT IT MEANS	EXAMPLE
order <i>orden</i>	To list numbers from _____ to greatest (or greatest to least).	-9, -2, 0, 6
least <i>mínimo</i>	The smallest number; it is farthest to the _____.	-9 is the least
greatest <i>máximo</i>	The biggest number; it is farthest to the _____.	6 is the greatest

KEY IDEA*complete each sentence*

- Least to greatest means _____ to right on a number line.
- Write every number in the same _____ (such as decimals) before you order.

WORKED EXAMPLE*fill in the blanks as we solve*Order -6, 1.5, -0.5, and $\frac{3}{4}$ from least to greatest.**Step 1** Write $\frac{3}{4}$ as a decimal: _____.**Step 2** Negatives first: $-6 < \underline{\hspace{1cm}}$.**Step 3** Then positives: $0.75 < 1.5$.**Answer** **-6, -0.5, $\frac{3}{4}$, 1.5****YOU TRY***use the example as a model***1.** Order from least to greatest.**a.** -3, -8, 1 _____**b.** -0.2, -2, -0.02 _____**2.** Three divers are at -12 m, -4.5 m, and -20.25 m. Which diver is deepest?*Show your work.***Deepest** _____**SUM IT UP***in your own words*

To order rational numbers, I _____, then I _____.
