

LESSON 8-2 • SESSION 1 • GUIDED NOTES

Addition Equations

Learning target – I can solve an addition equation by subtracting the same amount from both sides. · 6.EE.B.7

WORDS TO KNOW*fill in the missing words*

WORD	WHAT IT MEANS	EXAMPLE
inverse operations <i>operaciones inversas</i>	Two operations that ____ each other.	+ and –
isolate <i>aislar</i>	Get the variable ____ on one side.	$y = 26$
Subtraction Property of Equality <i>propiedad de sustracción de la igualdad</i>	Subtract the same number from ____ sides. They stay equal.	both sides – 14

KEY IDEA*complete each sentence*

- Subtraction ____ addition.
- To solve $x + 14 = 40$, subtract ____ from both sides so the equation stays ____.

WORKED EXAMPLE*fill in the blanks as we solve*Solve $21 + p = 50$.**Step 1** Subtract ____ from both sides.**Step 2** $p = 50 - 21 = \underline{\hspace{1cm}}$.**Step 3** Check: $21 + 29 = \underline{\hspace{1cm}}$.**Answer** $p = \underline{\hspace{1cm}}$ **YOU TRY***use the example as a model***1.** Solve each equation.

a. $x + 9 = 25$ ____

b. $12 + m = 30$ ____

2. Solve $k + 4.5 = 10$. Check your answer.*Show your work.***k** = _____**SUM IT UP***in your own words*

To solve an addition equation, I ____ because ____.

LESSON 8-2 • SESSION 2 • GUIDED NOTES**Subtraction Equations**

Learning target – I can solve a subtraction equation by adding the same amount to both sides. • 6.EE.B.7

WORDS TO KNOW*fill in the missing words*

WORD	WHAT IT MEANS	EXAMPLE
Addition Property of Equality <i>propiedad de suma de la igualdad</i>	Add the same number to ____ sides. They stay equal.	both sides + 9
difference <i>diferencia</i>	The answer when you _____.	in $m - 9 = 14$, it is 14
isolate <i>aislar</i>	Get the variable ____ on one side.	$m = 23$

KEY IDEA*complete each sentence*

- Addition ____ subtraction.
- To solve $p - 7 = 12$, add ____ to both sides.

WORKED EXAMPLE*fill in the blanks as we solve*Solve $m - 9 = 14$.**Step 1** Add ____ to both sides.**Step 2** $m = 14 + 9 = \underline{\hspace{1cm}}$.**Step 3** Check: $23 - 9 = \underline{\hspace{1cm}}$.**Answer** $m = \underline{\hspace{1cm}}$ **YOU TRY***use the example as a model***1.** Solve each equation.

a. $x - 7 = 19$ ____

b. $n - 15 = 40$ ____

2. Solve $p - 2.5 = 4$. Check your answer.*Show your work.***p** = _____**SUM IT UP***in your own words*

To solve a subtraction equation, I ____ because ____.
