The Language Page Activity Guide: Grades 4–5

How to use these activities

Each page that follows is one activity for Grades 4–5: what it is, how students use it, what feedback they get, and how to teach it.

1. **Open the link.** No account is needed to practice. Your work saves in this browser on this device. Share the link, or let students find the activity from the More menu.
2. **Choose help.** Most activities ask first how much help a student wants, such as frames and words, a word bank, or on my own. Some also offer more help along the way.
3. **Feedback is not a score.** The checks look for words and patterns, not meaning. Nothing on these pages is an ACCESS score or a WIDA level.
4. **Recording is optional.** A microphone is never required. Recording starts only when a person presses Record, and recordings stay in the open tab.
5. **Work saves on the device.** Saved work stays on the device and browser you used. It does not follow you to a different device, and clearing site data removes it. Passport can export it.

The start page links to the tour, the exploration, the featured lesson, these guides and the Site Guide.

In this guide

- **Where Does the Book Go?** Listening · activity for grades 4–5 · 4 min — page 2
- **Our Class Garden** Speaking · activity for grades 4–5 · 6 min — page 3
- **Amara's Garden** Reading · activity for grades 4–5 · 5 min — page 4
- **Language Upgrade Lab: Plants** Writing · activity for grades 4–5 · 5 min — page 5

Where Does the Book Go? Listening

Where: The Sound Studio · Starting support · **Time:** 4 min · **Link:** thelanguagepage.com/access-practice-lab/Listening/A/g35-l-a-classroom-place?grades=4-5

What it is. Students look at a classroom picture, listen to a direction, and choose the place named.

Why it works

Students listen for one place word at a time and can slow the audio, hear the question again and open word help, so the listening is the skill, not the speed.

How to open it. Share the link; it opens at the right grade. Students can also choose Listening under "Start by skill" on the lab home.

How students use it

1. Read the direction under Warm up. "Hear directions" reads it aloud, and "Key words" lists the words to know.
2. If the short skill lesson opens, read the three moves, then press "Got it, let me try."
3. Press "Listen." Try "Slower," then press "Hear question." "Word help" explains two words.
4. Choose an answer, then how sure you are: "Guessing," "I think so" or "Sure."
5. Press "Check my answer." If it says "Not yet — try again," read "One next step," then press "Try again" or "Show me the model."

Feedback students get

"Not yet — try again" with "What went well" and "One next step," or a confirmation. "Show me the model" is there when a student wants it. No score.

Built-in help (part of the activity)

- "Listen," "Slower" and "Hear question."
- Word help ("Ayuda con palabras").
- A two-minute skill lesson and a worked model.

Teaching moves (what you add)

- Play one direction for the class, then follow it in the room.

> **Good to know.** Help and retries are saved as supported practice. The page says it is practice evidence, not a proficiency score.

Teach it

Before	During	After
Point to places in the room: under the window, by the door, on the desk.	Students choose, then say the place words they heard.	Give one spoken direction and have a student follow it.

If something goes wrong

No sound	Check the device volume. Read the direction and the choices aloud yourself; the pictures still work.
Students guess	Ask them to choose "Guessing," then use "One next step" and listen again.

Our Class Garden Speaking

Where: The Expression Studio · Picture speaking ladder · **Time:** 6 min · **Link:** thelanguagepage.com/access-practice-lab/voice/ladder/class-garden?grades=4-5

What it is. Students climb three speaking steps on one garden picture: name things, tell about them, then say more.

Why it works

Students say one idea at three lengths, so they rehearse words before sentences and sentences before an explanation. Hearing a model student first shows what a complete answer sounds like.

How to open it. Share the link; it opens at the right grade. The garden is one of the picture speaking ladders in Voice Lab.

How students use it

1. Look at the garden picture.
2. Step 1 · Words: press “Hear the question,” then “Hear Pablo first” to hear a model answer.
3. Say three things you see. Open “Show a sentence frame” if you want help.
4. Optional: press “Record my answer,” then listen to yourself. Or say it to a partner.
5. Press “I said it out loud.” Then do Step 2 · Sentences (“Hear Mei first”) and Step 3 · Tell more (“Hear Tariq first”) the same way.

Feedback students get

No score; the page says these are practice steps, not ACCESS tiers or WIDA levels. A model student to compare with. Steps marked “said” are remembered on this device.

Built-in help (part of the activity)

- A model student for each step (device voice).
- A sentence frame under “Show a sentence frame.”
- Optional recording: the microphone is asked for only when you press “Record my answer.”

Teaching moves (what you add)

- Partners listen instead of recording.
- Students plan in their home language first.

> **Good to know.** Not scored. Recordings stay in the open tab and are never uploaded. “I said it out loud” is remembered on this device.

Teach it

Before	During	After
Show the picture and model Step 1 yourself.	Partners take turns; the listener holds up a finger for each detail they hear.	Ask two students to say their Step 3 answer to the class.

If something goes wrong

No sound from “Hear …”	Check the volume. The voice is the device’s own; read the model aloud instead.
No microphone, or students do not want to record	Skip Record. Say it to a partner, then press “I said it out loud.”

🕮 Amara's Garden Reading

Where: The Reading Atelier · Starting support · **Time:** 5 min · **Link:** thelanguagepage.com/access-practice-lab/Reading/A/g35-r-a-garden?grades=4-5

What it is. Students read a short passage with a picture and find the key detail that answers a question.

Why it works

A short passage with a picture lets students practice one move, matching a question word to the detail that answers it, and mark the evidence they used.

How to open it. Share the link; it opens at the right grade. Students can also choose Reading under "Start by skill" on the lab home.

How students use it

1. Read the direction under Warm up. "Hear directions" reads it aloud, and "Key words" lists the words to know.
2. If the short skill lesson opens, read the three moves, then press "Got it, let me try."
3. Press "Read Passage Aloud," or click one sentence to hear just that sentence. Mark the text with "Highlight," "Underline" or "Pin evidence."
4. Choose an answer, then how sure you are: "Guessing," "I think so" or "Sure."
5. Press "Check my answer." If it says "Not yet — try again," read "One next step," then press "Try again" or "Show me the model."

Feedback students get

"Not yet — try again" with "What went well" and "One next step," or a confirmation. "Show me the model" is there when a student wants it. No score.

Built-in help (part of the activity)

- "Read Passage Aloud," with a choice of speed.
- Highlight, Underline and Pin evidence.
- Word help and Spanish cognates.

Teaching moves (what you add)

- Read the passage together first.
- Partners compare the evidence they pinned.

> **Good to know.** Help and retries are saved as supported practice. The page says it is practice evidence, not a proficiency score.

Teach it

Before	During	After
Model one question word: who, what, where or when.	Students pin one sentence as evidence before they check.	Partners read their pinned sentence aloud.

If something goes wrong

The passage is hard to read	Press "Read Passage Aloud," or click one sentence at a time.
Students choose a true fact that answers a different question	Find the question word first, then look for it.

Language Upgrade Lab: Plants Writing

Where: The Composition Studio · Language builders · **Time:** 5 min · **Link:** thelanguagepage.com/access-practice-lab/scaffold/language-upgrade?item=lu35-explain-plants&grades=4-5

What it is. Students revise the plain sentence “Plants need stuff.” by adding a detail, an exact word and a connector.

Why it works

One sentence is small enough to revise several times in five minutes. The checks turn “make it better” into three concrete moves: a detail, an exact word, a connector.

How to open it. Share the link; it opens at the right grade. The Language Upgrade Lab is one of the Language builders.

How students use it

1. Read the everyday sentence: “Plants need stuff.”
2. Choose “Start with this help” (a frame and a word bank) or “On my own.”
3. Write a better version under “My revision.”
4. Press “Check my work.” If it says “Not yet. Here is what to fix:” it names a detail, a precise word or a connector.
5. Fix what it names and check again. “Ask for more help” adds more support.

Feedback students get

“Not yet. Here is what to fix:” with each missing move named. It looks for words and connectors; it does not judge meaning.

Built-in help (part of the activity)

- The frame “Plants need ___ and ___ because ___.” and a word bank (“Start with this help”), or nothing (“On my own”).
- “Ask for more help” adds support and marks the try as supported.
- “Check my work” names what to fix; students can revise as many times as they like.

Teaching moves (what you add)

- Read the frame aloud together before writing.
- Partners swap sentences and underline the exact word.

> **Good to know.** The check looks for a detail, an exact word and a connector. It does not judge meaning.

Teach it

Before	During	After
Read the frame aloud and model one exact word for “stuff.”	Students check, then compare their exact word with a partner.	Collect three revised sentences and read them aloud.

If something goes wrong

“Not yet” on every check	Use the frame “Plants need ___ and ___ because ___.” and two words from the bank.
A student wants no help	Choose “On my own.” Opening help later marks the try as supported, which is fine.
