UNIT 1 · STANDARD MPP.3

Math is Ours

Lesson 1-6 · Teacher Copy

Name: _____ **Date:** _____ **Class:** _____

My Notes

Level 1 Support

🎯 **TODAY'S OBJECTIVES**

Content Objective: I can describe my problem-solving process, name strategies for getting unstuck, and identify the behaviors that make our class a community of math thinkers.

Language Objective: I can talk about problem solving using the phrases make sense of, get stuck, try a strategy, and work together.

📖 See **Learn It** for the explanation and worked examples, and the **Vocab** tab for the words. These are your notes to fill in and keep.

✏️ **Fill in each blank as we go. Use the Word Bank to help you.**

📚 **WORD BANK — FILL EACH BLANK WITH THE BEST WORD**

representation · **strategy** · **critique** · **community agreement**

1. A drawing, table, or equation that shows the math in a situation is a _____.

2. The plan you choose before you start computing is your _____.

3 To examine an idea and say what is or is not convincing is to _____ it.

4 A rule the whole class agrees to so everyone can learn is a _____ _____ .

Write About the Math

What ideas do you recommend that the whole class agrees to so that math class is a community of learners?
¿Qué ideas recomiendas que toda la clase acepte para que la clase de matemáticas sea una comunidad de aprendices?

Say your answer to a partner first. Then write it, using at least two of these words:

- ☐ **representation** *representación*
- ☐ **strategy** *estrategia*
- ☐ **critique** *criticar constructivamente*
- ☐ **community agreement** *acuerdo comunitario*

Model: *The rack with 8 bikes has 8 × 2 = 16 wheels, and the second rack has 6 times as many wheels as that.* — A strong answer names a specific first move (like finding 8×2=16 before tackling '6 times as many') rather than jumping to the final answer. A weak answer just states a number with no process described.

Start

Complete the frames. Use the word bank.

Completa las oraciones. Usa el banco de palabras.

- **Propose a class agreement for working ___, and another for working alone, based on showing ___ for classmates. State each idea as a clear class ___ that helps everyone learn.**
- **My answer is ___ because ___.**
  Mi respuesta es ___ porque ___.

Build

Write two connected sentences. Use because, so, or but.

Escribe dos oraciones conectadas. Usa porque, entonces o pero.

- **My claim is ___.**
  Mi afirmación es ___.
- **My evidence is ___, so ___.**
  Mi evidencia es ___, entonces ___.

Explain

Write a claim, give math evidence, and explain your reasoning.

Escribe una afirmación, da evidencia matemática y explica tu razonamiento.

- [ ] I answered the question.
- [ ] I used math evidence: numbers, an equation, or a model.
- [ ] I used at least two math words.

Writing Guide — Teacher Copy

- The answer to the math question is correct.
- The evidence is real lesson mathematics (numbers, equation, or model), not restated claim.
- The support level changed the language scaffolding, never the mathematical expectation.

Answer Key & Teacher Guide

1. **Notes 1:** representation
2. **Notes 2:** strategy
3. **Notes 3:** critique
4. **Notes 4:** community agreement
5. **Watch for this mistake:** *Treating 'stuck' as a stop sign instead of a signal — waiting silently instead of trying a strategy: asking a question, drawing the problem, or recalling a similar problem.*
6. **Try It 1:**

7. **Try It 2:**
