UNIT 10 · STANDARD MPP.3

Math is Mine

Lesson 10-6 · Teacher Copy

Name: _____ **Date:** _____ **Class:** _____

My Notes

Level 1 Support

🎯 **TODAY'S OBJECTIVES**

Content Objective: I can look back at my answers from Lesson 1-1, describe how my math biography has changed this year, and recognize ways we are all doers of math.

Language Objective: I can compare my beginning-of-year and end-of-year math stories using the words then, now, changed, and grown.

📖 See **Learn It** for the explanation and worked examples, and the **Vocab** tab for the words. These are your notes to fill in and keep.

✏️ **Fill in each blank as we go. Use the Word Bank to help you.**

📚 **WORD BANK — FILL EACH BLANK WITH THE BEST WORD**

math biography · **reflect** · **growth** · **confidence** · **community**

1. The story of your relationship with math over time is your _____.

2. To look back at what you did and think about what it means is to _____.

3 The change between what you could do before and what you can do now is _____ .

4 Trusting yourself to try, even when the first attempt may fail, is _____ .

5 The people and places around you where math shows up are your _____ .

Write About the Math

How does your classmate's end-of-school-year math story compare to your story?
¿Cómo se compara la historia matemática de fin de año escolar de tu compañero con la tuya?

Say your answer to a partner first. Then write it, using at least two of these words:

- ☐ **math biography** — *biografía matemática*
- ☐ **reflect** — *reflexionar*
- ☐ **growth** — *crecimiento*
- ☐ **confidence** — *confianza*
- ☐ **community** — *comunidad*

Model: *80 riders per turn × 6 turns an hour = 480 riders an hour, using a rate — a tool this year's math added.* — A strong answer multiplies 80 × 6 = 480 correctly and names 'rate' as the new tool. A weak answer gives 480 with no explanation of what changed since September.

Start

Complete the frames. Use the word bank.

Completa las oraciones. Usa el banco de palabras.

- **Describe how your math story has ___ this year, ask a ___ about their story, and then ___ the two to see how they are alike and different.**
- **My answer is ___ because ___.**
  Mi respuesta es ___ porque ___.

Build

Write two connected sentences. Use because, so, or but.

Escribe dos oraciones conectadas. Usa porque, entonces o pero.

- **My claim is ___.**
  Mi afirmación es ___.
- **My evidence is ___, so ___.**
  Mi evidencia es ___, entonces ___.

Explain

Write a claim, give math evidence, and explain your reasoning.

Escribe una afirmación, da evidencia matemática y explica tu razonamiento.

- [ ] I answered the question.
- [ ] I used math evidence: numbers, an equation, or a model.
- [ ] I used at least two math words.

Writing Guide — Teacher Copy

- The answer to the math question is correct.
- The evidence is real lesson mathematics (numbers, equation, or model), not restated claim.
- The support level changed the language scaffolding, never the mathematical expectation.

Answer Key & Teacher Guide

1. **Notes 1:** math biography
2. **Notes 2:** reflect
3. **Notes 3:** growth
4. **Notes 4:** confidence
5. **Notes 5:** community
6. **Watch for this mistake:** *Treating your math story as finished — writing the same answers you wrote in Lesson 1-1 instead of looking for what actually changed. The story grows and evolves; a retrospective that copies September has missed the point.*

7. **Try It 1:**
8. **Try It 2:**
