UNIT 3 · STANDARD 6.AT.1

Understand Ratios

Lesson 3-1

Name: _____ **Date:** _____ **Class:** _____

CHEF ACADEMY MISSION

The Signature Recipe

You just earned your apron at Chef Academy. Head Chef Reyes is trusting you with her signature cookie recipe — 3 cups of flour for every 2 cups of sugar. Before service begins, you must read every recipe like a pro by mastering ratios, or the whole kitchen falls behind.

My Notes

Level 1 Support

🎯 **TODAY'S OBJECTIVES**

Content Objective: I can write and describe a ratio that compares two quantities.

Language Objective: I can explain a comparison using the words ratio, part-to-part, part-to-whole, and colon notation.

📖 See **Learn It** for the explanation and worked examples, and the **Vocab** tab for the words. These are your notes to fill in and keep.

✏️ **Fill in each blank as we go. Use the Word Bank to help you.**

📚 **WORD BANK — FILL EACH BLANK WITH THE BEST WORD**

Ratio · **Comparison** · **Part-to-part** · **Part-to-whole** · **Colon notation** · **Tape diagram** · **Double number line** · **Term** · **Simplest form** · **Total parts**

1. A comparison of two quantities, like 3 to 5, is a _____ .

2. Showing how two amounts relate to each other is a _____ .

3. A ratio that compares one part of a group to another part is a _____ ratio.

4. A ratio that compares one part of a group to the total is a _____ ratio.

5. Writing a ratio with a colon, like 3:5, is using _____ .

6. A bar cut into equal parts that shows how a ratio breaks apart is a _____ _____ .

7. Two lines whose matching ticks pair the two amounts in a ratio form a _____ _____ _____ .

8. Each of the two numbers in a ratio is a _____ .

9. 6 : 9 written as 2 : 3 is in _____ .

10. Adding the two terms of a ratio gives the _____ .

Write About the Math

The school cafeteria is planning a new lunch menu. They want to offer 3 main dishes for every 2 side dishes. If they have 10 side dishes, the cafeteria manager needs to figure out how many main dishes to prepare?

Say your answer to a partner first. Then write it, using at least two of these words:

- ☐ **Ratio** — *Razón*
- ☐ **Comparison** — *Comparación*
- ☐ **Part-to-part** — *Parte a parte*
- ☐ **Part-to-whole** — *Parte a todo*
- ☐ **Colon notation** — *Notación con dos puntos*

Model: *The recipe uses 3 cups of apple juice for every 2 cups of sparkling water.* — A strong answer names that apple juice and sparkling water are being compared and states the relationship as 3 to 2 (or 'for every 3 apple juice, 2 sparkling water'), not just that there is more apple juice.

Start

Complete the frames. Use the word bank.

Completa las oraciones. Usa el banco de palabras.

- **For every ___ main dishes the cafeteria serves ___ side dishes, so with 10 side dishes they need ___ main dishes.**
- **My answer is ___ because ___.**
  Mi respuesta es ___ porque ___.

Build

Write two connected sentences. Use because, so, or but.

Escribe dos oraciones conectadas. Usa porque, entonces o pero.

- **My claim is ___.**
  Mi afirmación es ___.
- **My evidence is ___, so ___.**
  Mi evidencia es ___, entonces ___.

Explain

Write a claim, give math evidence, and explain your reasoning.

Escribe una afirmación, da evidencia matemática y explica tu razonamiento.

- [ ] I answered the question.
- [ ] I used math evidence: numbers, an equation, or a model.
- [ ] I used at least two math words.
