UNIT 6 · STANDARD 6.AT.7

Simplify Algebraic Expressions

Lesson 6-15

Name: _____ **Date:** _____ **Class:** _____

My Notes

Level 3 Enrichment

🎯 **TODAY'S OBJECTIVES**

Content Objective: I can simplify algebraic expressions by combining like terms.

Language Objective: I can explain my steps using the words like terms, combine, simplify, and coefficient.

📖 See **Learn It** for the explanation and worked examples, and the **Vocab** tab for the words. These are your notes to fill in and keep.

✏️ **Fill in each blank as we go. Use the Word Bank to help you.**

📚 **WORD BANK — FILL EACH BLANK WITH THE BEST WORD**

Like Terms | **Combine** | **Simplify** | **Coefficient** | **Term** | **Distributive property**

Level 3: try the blanks from memory first, then check the bank.

1. Terms with the same variable part, like 3y and 8y, are _____.

2. To add or subtract like terms into a single term is to _____ them.

3. Rewriting an expression in a shorter form that is still equal to it is to _____ it.

4 The number multiplied by a variable is the _____ .

5 A number or variable separated by + or – signs is a _____ .

6 Multiplying each part of a sum by a number uses the _____ property.

Write About the Math

Simplify the total order expression. What does each part of the simplified expression tell you?
Simplifica la expresión del pedido total. ¿Qué te dice cada parte de la expresión simplificada?

Say your answer to a partner first. Then write it, using at least two of these words:

- ☐ **Like Terms** *Términos semejantes*
- ☐ **Combine** *Combinar*
- ☐ **Simplify** *Simplificar*
- ☐ **Coefficient** *Coeficiente*
- ☐ **Term** *Término*

Model: *You can only combine items of the same type, just like like terms.* — Students explain microphones combine with microphones (4 + 2 + 6 = 12) but not with stands, connecting this to combining like terms in algebra.

Start

Complete the frames. Use the word bank.

Completa las oraciones. Usa el banco de palabras.

- **The total order simplifies to ___m + ___. The ___ tells us ___ and the ___ tells us ___.**
- **My answer is ___ because ___.**
  Mi respuesta es ___ porque ___.

Build

Write two connected sentences. Use because, so, or but.

Escribe dos oraciones conectadas. Usa porque, entonces o pero.

- **My claim is ___.**
  Mi afirmación es ___.
- **My evidence is ___, so ___.**
  Mi evidencia es ___, entonces ___.

Explain

Write a claim, give math evidence, and explain your reasoning.

Escribe una afirmación, da evidencia matemática y explica tu razonamiento.

- [ ] I answered the question.
- [ ] I used math evidence: numbers, an equation, or a model.
- [ ] I used at least two math words.
