

Volume of Rectangular Prisms

Lesson 10-2

Name: Type your name **Date:** Today's date **Class:** Class period

TODAY'S OBJECTIVES

Content Objective: I can find the volume of a rectangular prism, including ones with fractional edge lengths, using $\text{base area} \times \text{height}$.

Language Objective: I can explain my work using the words volume, rectangular prism, dimensions, and base area.

See **Learn It** for the explanation and worked examples, and the **Vocab** tab for the words. These are your notes to fill in and keep.

Fill in each blank as we go. Use the Word Bank to help you.

WORD BANK — FILL EACH BLANK WITH THE BEST WORD

Volume

Rectangular prism

Cubic units

Dimensions

Net

Base area

Tap any word to see what it means and a picture.

Level 3: try the blanks from memory first, then check the bank.

1 The amount of space inside a three-dimensional solid is its .

2 A solid with six rectangular faces is a .

3 The unit used to measure volume is .

4 The measurements of length, width, and height of a solid are its

.

5 A flat pattern that folds into a solid is a .

6 The area of the bottom face of a prism, multiplied by height to find volume, is the

.

Reflect — Exit Ticket

A rectangular prism has $l = 7$ ft, $w = 2$ ft, $h = 3$ ft. What is the volume?

- A. 42 ft^3
- B. 24 ft^3
- C. 42 ft^2
- D. 12 ft^3

Your answer:
