UNIT 4 • STANDARD 6.AT.4

Percents Greater Than 100% and Less Than 1%

Lesson 4-3 • Teacher Copy

Name: _____

Date: _____

Class: _____

TODAY'S OBJECTIVES

Content Objective: I can write and interpret percents greater than 100% and less than 1%.

Language Objective: I can explain my reasoning using the words percent, greater than 100%, less than 1%, and equivalent.

See **Learn It** for the explanation and worked examples, and the **Vocab** tab for the words. These are your notes to fill in and keep.

Fill in each blank as we go. Use the Word Bank to help you.

WORD BANK — FILL EACH BLANK WITH THE BEST WORD

Percent

Greater than 100%

Less than 1%

Equivalent

Mixed number

Tap any word to see what it means and a picture.

1

A number out of 100, written with a % sign, is a .

2

A percent that represents more than one whole, like 150%, is

.

3

A percent smaller than one out of a hundred, like 0.5%, is .

4

Values that name the same amount, like 0.5% and 0.005, are

.

5

A number with a whole part and a fraction part, like $1 \frac{1}{2}$, is a

.

Reflect — Exit Ticket

Which statement is true about 0.25%?

- A. It equals 0.0025 as a decimal
- B. It equals 0.25 as a decimal
- C. It equals $\frac{1}{4}$ as a fraction
- D. It is greater than 1%

Your answer:

Answer Key & Teacher Guide

1. **Notes 1:** Percent
2. **Notes 2:** Greater than 100%
3. **Notes 3:** Less than 1%
4. **Notes 4:** Equivalent
5. **Notes 5:** Mixed number
6. **Watch for this mistake:** *A common mistake in Percents Greater Than 100% and Less Than 1% is skipping the key idea: "To change any percent to a decimal, divide by 100 (move the decimal point two places to the left)." — always check your work against this rule before you submit.*
7. **Try It 1:** A. 0.005 — $0.5\% = 0.5 \div 100 = 0.005$. *Because it is less than 1%, the decimal must be less than 0.01.*
8. **Try It 2:** A. About 20 mAh — a tiny sliver, almost empty — $0.5\% = 0.005$, and $0.005 \times 4,000 = 20$ mAh. *A percent less than 1% is a tiny part, so the phone is nearly dead.*
9. **Exit Ticket:** A. It equals 0.0025 as a decimal — $0.25\% = 0.25 \div 100 = 0.0025$. *It is much less than 1%, not equal to $1/4$.*
