

Area of Regular Polygons

Lesson 5-4

Name: _____ **Date:** _____ **Class:** _____

TODAY'S OBJECTIVES

Content Objective: I can find the area of a regular polygon by decomposing it into triangles.

Language Objective: I can explain my steps using the words regular polygon, decompose, triangle, and composite.

See **Learn It** for the explanation and worked examples, and the **Vocab** tab for the words. These are your notes to fill in and keep.

Fill in each blank as we go. Use the Word Bank to help you.

WORD BANK — FILL EACH BLANK WITH THE BEST WORD

Regular Polygon

Decompose

Triangle

Composite

Formula

Tap any word to see what it means and a picture.

Level 3: try the blanks from memory first, then check the bank.

1

A polygon with all sides and all angles equal is a .

2

To break a shape into smaller shapes is to it.

3

A three-sided polygon is a .

4

Made of two or more shapes combined, a figure is .

5

A math rule written with symbols is a .
