UNIT 7 • STANDARD 6.AT.9

Write Inequalities

Lesson 7-4 • Teacher Copy

Name: _____ **Date:** _____ **Class:** _____

TODAY'S OBJECTIVES

Content Objective: I can write inequalities to represent real-world situations.

Language Objective: I can explain my inequality using the words inequality, greater than, less than, and at least / at most.

See **Learn It** for the explanation and worked examples, and the **Vocab** tab for the words. These are your notes to fill in and keep.

Fill in each blank as we go. Use the Word Bank to help you.

WORD BANK — FILL EACH BLANK WITH THE BEST WORD

Inequality

Greater than

Less than

At least / At most

Variable

No more than

Tap any word to see what it means and a picture.

Level 3: try the blanks from memory first, then check the bank.

1 A math sentence comparing values with $<$, $>$, $\leq$, or $\geq$ is an .

2 The symbol $>$ that means one value is larger than another means .

3 The symbol $<$ that means one value is smaller than another means .

4 'At least' means greater than or equal to, and 'at most' means than or equal to.

5 A letter that stands for an unknown number is a .

6

The phrase that means less than or equal to is "no more than," written with the symbol.

Reflect — Exit Ticket

Which inequality represents: 'A number n is at least 14'?

A. $n \geq 14$

B. $n > 14$

C. $n \leq 14$

D. $n < 14$

Your answer:

Answer Key & Teacher Guide

1. **Notes 1:** Inequality
2. **Notes 2:** Greater than
3. **Notes 3:** Less than
4. **Notes 4:** At least / At most
5. **Notes 5:** Variable
6. **Notes 6:** No more than
7. **Watch for this mistake:** *A common mistake in Write Inequalities is skipping the key idea: "'At least' means $\geq$ and 'at most' means $\leq$; 'more than' means $>$ and 'fewer/less than' means $<$." — always check your work against this rule before you submit.*
8. **Try It 1:** A. $g \geq 12$ — 'At least 12' includes 12 and any number above it, so $g \geq 12$.
9. **Try It 2:** A. $n < 5$ — 'Fewer than 5' does not include 5, so $n < 5$.
10. **Exit Ticket:** A. $n \geq 14$ — 'At least 14' means 14 or greater, so $n \geq 14$.
