

# Add and Subtract Decimals

Lesson 2-11

**Name:**

**Date:**

**Class:**

---

## TODAY'S OBJECTIVES

**Content Objective:** I can add and subtract decimals by lining up the place values and the decimal points.

**Language Objective:** I can explain my steps using the words decimal, place value, tenths, hundredths, and add zeros.

See **Learn It** for the explanation and worked examples, and the **Vocab** tab for the words. These are your notes to fill in and keep.

**Fill in each blank as we go. Use the Word Bank to help you.**

## WORD BANK — FILL EACH BLANK WITH THE BEST WORD

Add and Subtract Decimals

Decimal

Place value

Tenths

Hundredths

Annex zeros

Tap any word to see what it means and a picture.

1

— Combine or find the difference between decimals by lining up equal place values.

2

A number that uses a point to show a value less than one whole is a

3

The value a digit has based on its position in a number is its

4

The first place to the right of the decimal point is the

 place.

5

The second place to the right of the decimal point is the

place.

6

Writing extra zeros at the end of a decimal so the places line up is called

.

## Write About the Math

Guided ESOL writing

Use the support level you need. Every level answers the same math question.

### 1. Understand the Question

COMPARE

**How do you add decimals with different numbers of decimal places to find her total time?**

**Your job:** Answer the question. Use math evidence. Explain how the evidence proves your answer.

*Responde la pregunta. Usa evidencia matemática. Explica cómo la evidencia demuestra tu respuesta.*

## 2. Plan Your Math Words

Check at least two words you will use.

☐ **Add and Subtract Decimals** — Combine or find the difference between decimals by lining up equal place values.  
*Sumar y restar decimales — Combinar o hallar la diferencia entre decimales alineando valores posicionales iguales.*

☐ **Decimal** — A number with a dot, like 0.5, that shows a part less than one.  
*Decimal — Un número con un punto, como 0.5, que muestra una parte menor que uno.*

☐ **Place value** — What a digit is worth based on where it sits in a number.  
*Valor posicional — Lo que vale un dígito según el lugar que ocupa en el número.*

☐ **Tenths** — The first spot after the decimal point. It shows parts out of 10.  
*Décimas — El primer lugar después del punto decimal. Muestra partes de 10.*

☐ **Hundredths** — The second spot after the decimal point. It shows parts out of 100.  
*Centésimas — El segundo lugar después del punto decimal. Muestra partes de 100.*

**Say it first:** Say your idea to a partner or quietly to yourself before you write.

*Di tu idea a un compañero o en voz baja antes de escribir.*

**The runner's total time is \_\_\_\_ minutes because  $2.45 + 2.60 + 2.38 =$  \_\_\_\_.**

*Di tu respuesta primero: Mi respuesta es \_\_\_\_ porque \_\_\_\_.*

### 3. Build Your Explanation

**Model the parts:** This model shows the parts of an explanation. It does not answer your writing question.

**Claim:** Lining up the decimal points keeps each place value matched.

**Evidence:** Students explain that aligning decimal points lines up matching place values (tenths under tenths, hundredths under hundredths) so the addition and subtraction are correct.

**Reasoning:** This evidence connects the definition of add and subtract decimals to the mathematical claim.

#### Start

Most language support

Complete the frames. Use the word bank.

*Completa las oraciones. Usa el banco de palabras.*

- **The runner's total time is \_\_\_\_ minutes because  $2.45 + 2.60 + 2.38 =$  \_\_\_\_.**
- **My answer is \_\_\_\_.**

*Mi respuesta es \_\_\_\_.*

---

---

---

#### Build

Some language support

Write two connected sentences. Use because, so, or but.

*Escribe dos oraciones conectadas. Usa porque, entonces o pero.*

- **My claim is \_\_\_\_.**  
*Mi afirmación es \_\_\_\_.*
- **I know because \_\_\_\_.**

*Lo sé porque \_\_\_\_.*

- **So \_\_\_\_.**

*Entonces \_\_\_\_.*

---

---

---

---

## Explain

### Light language support

Write a claim, give math evidence, and explain your reasoning.

*Escribe una afirmación, da evidencia matemática y explica tu razonamiento.*

- **My claim is \_\_\_\_.**  
*Mi afirmación es \_\_\_\_.*
- **My math evidence is \_\_\_\_.**  
*Mi evidencia matemática es \_\_\_\_.*
- **This proves \_\_\_\_ because \_\_\_\_.**  
*Esto demuestra \_\_\_\_ porque \_\_\_\_.*

---

---

---

---

---

## 4. Check Your Explanation

- ☐ I answered the question.  
*Respondí la pregunta.*
- ☐ I used math evidence: numbers, an equation, a model, or a comparison.  
*Usé evidencia matemática: números, una ecuación, un modelo o una comparación.*
- ☐ I explained how the evidence proves my answer.  
*Explicué cómo la evidencia demuestra mi respuesta.*
- ☐ I used at least two math words.  
*Usé por lo menos dos palabras matemáticas.*
- ☐ I reread complete sentences and punctuation.  
*Volví a leer mis oraciones completas y la puntuación.*
