

Lesson 2.4 Explain Your Thinking

Session 1 · Building a Box Plot

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

English math word	Spanish
box plot	diagrama de caja
quartile	cuartil
five-number summary	resumen de cinco números

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

I used ____ as the overall median; the lower half is ____, so Q1 is ____.

3 · Choose a connected sentence

Because: My conclusion follows because ____.

But: Includes the overall median in the lower and upper halves despite the stated convention. may seem reasonable, but ____ shows why it fails.

So: The relationship in my model is ____, so ____.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.

GRADE 6 MATHEMATICS | STUDENT SUPPORT

Session 2 · Comparing Box Plots

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

English math word	Spanish
center	centro
spread	dispersión
consistent	constante

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

Group ____ has a smaller IQR because ____ - ____ = ____, compared with ____.

3 · Choose a connected sentence

Because: My conclusion follows because ____.

But: Uses box length to infer the number of observations. may seem reasonable, but ____ shows why it fails.

So: The relationship in my model is ____, so ____.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.
