

Lesson 2.5 Explain Your Thinking

Session 1 · Range and IQR

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

English math word	Spanish
range	rango
interquartile range (IQR)	rango intercuartil
variability	variabilidad

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

The IQR changed from ____ to ____ because Q3 _____. This shows that _____.

3 · Choose a connected sentence

Because: My conclusion follows because _____.

But: Treats resistance to extremes as a rule that IQR never changes. may seem reasonable, but _____ shows why it fails.

So: The relationship in my model is _____, so _____.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.

GRADE 6 MATHEMATICS | STUDENT SUPPORT

Session 2 · Comparing Variability

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

English math word	Spanish
consistent	constante
range	rango
IQR	rango intercuartil

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

Using ____, I choose ____ because _____. However, the other measure shows _____.

3 · Choose a connected sentence

Because: My conclusion follows because _____.

But: Compares one group's range with another group's IQR or calls a group simply 'more spread out' without a measure. may seem reasonable, but _____ shows why it fails.

So: The relationship in my model is _____, so _____.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.
