

# Lesson 2.8 Explain Your Thinking

## Session 1 · Finding the Mean

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

| English math word | Spanish           |
|-------------------|-------------------|
| mean              | media             |
| average           | promedio          |
| measure of center | medida de centro  |
| data set          | conjunto de datos |

### 1 · Represent the relationship

Point to, draw, or label the important quantities and units.

### 2 · Rehearse with a partner

The mean is \_\_\_\_ per group because \_\_\_\_ objects are shared among \_\_\_\_ groups.

### 3 · Choose a connected sentence

Because: My conclusion follows because \_\_\_\_.

But: Leaves a zero observation out of the count. may seem reasonable, but \_\_\_\_ shows why it fails.

So: The relationship in my model is \_\_\_\_, so \_\_\_\_.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.

GRADE 6 MATHEMATICS | STUDENT SUPPORT

**Session 2 · Reaching a Target Mean**

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

| English math word | Spanish        |
|-------------------|----------------|
| target mean       | media objetivo |
| target total      | total objetivo |
| missing value     | valor faltante |

**1 · Represent the relationship**

Point to, draw, or label the important quantities and units.

**2 · Rehearse with a partner**

There will be \_\_\_\_ scores, so the target total is \_\_\_\_\_. The missing score is \_\_\_\_\_, which is/is not possible because \_\_\_\_\_.

**3 · Choose a connected sentence**

Because: My conclusion follows because \_\_\_\_\_.

But: Uses the number of known values rather than the final number of observations. may seem reasonable, but \_\_\_\_\_ shows why it fails.

So: The relationship in my model is \_\_\_\_\_, so \_\_\_\_\_.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.
