

Lesson 3.2 Explain Your Thinking

Session 1 · Understanding Unit Rates

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

English math word	Spanish
rate	tasa
unit rate	tasa unitaria
per	por
constant	constante

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

I need ___ per ___, so I divide ___ by ___.

3 · Choose a connected sentence

Because: My conclusion follows because ___.

But: Divides in the opposite order without changing the meaning of the unit. may seem reasonable, but ___ shows why it fails.

So: The relationship in my model is ___, so ___.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.

GRADE 6 MATHEMATICS | STUDENT SUPPORT

Session 2 · Comparing Unit Prices (Best Buy)

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

English math word	Spanish
unit price	precio unitario
better buy	mejor compra
total price	precio total

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

Pack ____ is cheaper per notebook because ____ is less than ____.

3 · Choose a connected sentence

Because: My conclusion follows because ____.

But: Chooses the lower package price without matching quantities. may seem reasonable, but ____ shows why it fails.

So: The relationship in my model is ____, so ____.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.
