

Lesson 3.3 Explain Your Thinking

Session 1 · Equivalent Ratios and Tables

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

English math word	Spanish
equivalent ratios	razones equivalentes
ratio table	tabla de razones
scale factor	factor de escala

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

Both quantities are multiplied by ____, so the relationship remains ____.

3 · Choose a connected sentence

Because: My conclusion follows because ____.

But: Uses equal addition rather than equal scaling. may seem reasonable, but ____ shows why it fails.

So: The relationship in my model is ____, so ____.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.

Session 2 · The Bridge Strategy (Scaling Ratios)

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

English math word	Spanish
bridge ratio	razón puente
simplify	simplificar
greatest common factor	máximo común divisor

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

I used the bridge ____ because it connects ____ to ____ with ____.

3 · Choose a connected sentence

Because: My conclusion follows because ____.

But: Assumes the scale factor must be a whole number. may seem reasonable, but ____ shows why it fails.

So: The relationship in my model is ____, so ____.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.
