

Lesson 5.2 Explain Your Thinking

Session 1 · Area of Triangles

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

English math word	Spanish
right triangle	triángulo rectángulo
height	altura
congruent	congruente

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

The relevant faces or regions are ____ because _____. My labeled dimensions show ____, so the measure is _____.

3 · Choose a connected sentence

Because: My conclusion follows because _____.

But: Omits one-half or uses a nonperpendicular side. may seem reasonable, but _____ shows why it fails.

So: The relationship in my model is _____, so _____.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.

Session 2 · Missing Measures in Triangles

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

English math word	Spanish
area	área
formula	fórmula
inverse operation	operación inversa

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

The relevant faces or regions are ____ because _____. My labeled dimensions show ____, so the measure is _____.

3 · Choose a connected sentence

Because: My conclusion follows because _____.

But: Divides area by base without accounting for one-half. may seem reasonable, but _____ shows why it fails.

So: The relationship in my model is _____, so _____.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.
