

Lesson 6.7 Explain Your Thinking

Session 1 · Factors and Greatest Common Factor

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

English math word	Spanish
factor	factor
greatest common factor	máximo común divisor
prime factorization	factorización prima

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

My model or expression represents ____ because _____. The structure shows ____, so the result is _____.

3 · Choose a connected sentence

Because: My conclusion follows because _____.

But: Reports the number of items per kit as the GCF. may seem reasonable, but _____ shows why it fails.

So: The relationship in my model is _____, so _____.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.

Session 2 · Multiples and Least Common Multiple

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

English math word	Spanish
multiple	múltiplo
common multiple	múltiplo común
least common multiple	mínimo común múltiplo

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

My model or expression represents ____ because _____. The structure shows ____, so the result is ____.

3 · Choose a connected sentence

Because: My conclusion follows because _____.

But: Uses GCF for recurrence or reports today as the next meeting. may seem reasonable, but _____ shows why it fails.

So: The relationship in my model is _____, so _____.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.
