

Lesson 6.8 Explain Your Thinking

Session 1 · Using Properties to Rewrite Expressions

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

English math word	Spanish
Distributive Property	propiedad distributiva
like terms	términos semejantes
equivalent expressions	expresiones equivalentes

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

My model or expression represents ____ because _____. The structure shows ____, so the result is _____.

3 · Choose a connected sentence

Because: My conclusion follows because _____.

But: Distributes to only the variable term. may seem reasonable, but _____ shows why it fails.

So: The relationship in my model is _____, so _____.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.

Session 2 · Expanding and Factoring Expressions

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

English math word	Spanish
expand	desarrollar
factor an expression	factorizar una expresión
greatest common factor	máximo común divisor

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

My model or expression represents ____ because _____. The structure shows ____, so the result is ____.

3 · Choose a connected sentence

Because: My conclusion follows because _____.

But: Accepts any common factor as the greatest or fails to divide every term. may seem reasonable, but _____ shows why it fails.

So: The relationship in my model is _____, so _____.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.
