

# Lesson 7.4 Explain Your Thinking

## Session 1 · Comparing Numbers on a Number Line

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

| English math word | Spanish     |
|-------------------|-------------|
| greater than      | mayor que   |
| less than         | menor que   |
| inequality        | desigualdad |

### 1 · Represent the relationship

Point to, draw, or label the important quantities and units.

### 2 · Rehearse with a partner

The location or direction is \_\_\_\_, but the distance is \_\_\_\_\_. I know this because \_\_\_\_\_.

### 3 · Choose a connected sentence

Because: My conclusion follows because \_\_\_\_\_.

But: Assumes greater distance from zero means a greater negative number. may seem reasonable, but \_\_\_\_\_ shows why it fails.

So: The relationship in my model is \_\_\_\_\_, so \_\_\_\_\_.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.

Session 2 · Ordering Integers and Rational Numbers

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

| English math word | Spanish |
|-------------------|---------|
| order             | orden   |
| least             | mínimo  |
| greatest          | máximo  |

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

The location or direction is \_\_\_\_, but the distance is \_\_\_\_\_. I know this because \_\_\_\_\_.

3 · Choose a connected sentence

Because: My conclusion follows because \_\_\_\_\_.

But: Uses positive-number digit comparisons for negative numbers. may seem reasonable, but \_\_\_\_\_ shows why it fails.

So: The relationship in my model is \_\_\_\_\_, so \_\_\_\_\_.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.
