

Reciprocal Card Duel

Unit 2: Fraction Detective Agency · Lesson 2-3 · EduWonderLab

UNIT 2 · LESSON 2-3 · TEACHER NOTES

Standard 6.NS.1

FORMAT Partner duel / highest-quotient	TIME 25–30 min
GROUPING Pairs	TOPIC Divide Fractions
STANDARD 6.NS.1	PREP LEVEL Light — print fraction cards and steps mat

Learning goal *I can divide a fraction by a fraction and simplify the quotient.*

Teacher setup

- Print one card set and one steps mat per pair. Shuffle the cards.
- Each round, players draw the listed problem, divide, simplify, and compare quotients.
- Require one written explanation every three rounds.

Materials

Fraction cards, Reciprocal steps mat, Simplify checklist, Pencil.

Differentiation & language support

- Steps mat: “Keep – Change – Flip,” then multiply, then simplify (SPED).
- Sentence stem: “I flipped ___ to ___ and multiplied.”
- ESOL: color-code numerator and denominator on the mat.

Key vocabulary (English / Español):

Term	Español	What it means
reciprocal	recíproco	a fraction flipped upside down
simplify	simplificar	to write a fraction in lowest terms

Quick teacher check: *Ask a pair to show the flip step for Card 5 ($2/5 \div 3/10$).*

Reciprocal Card Duel

Unit 2: Fraction Detective Agency · Lesson 2-3 · EduWonderLab

Name: _____

Date: _____

Class: _____

Your goal: *I can divide a fraction by a fraction and simplify the quotient.*

What you need

Fraction cards, Reciprocal steps mat.

How to play

1. Both players solve the same card using Keep-Change-Flip.
2. Simplify the quotient fully.
3. Compare answers. The higher correct quotient wins the round.
4. Every third round, write one sentence explaining your steps.

Duel Cards

Keep the first fraction, change $\div$ to $\times$, flip the second fraction, multiply, then simplify.

1. $1/2 \div 1/4$	2. $2/3 \div 1/6$
3. $3/4 \div 1/2$	4. $5/6 \div 1/3$
5. $2/5 \div 3/10$	6. $3/8 \div 3/4$
7. $7/8 \div 1/4$	8. $4/9 \div 2/3$
9. $5/6 \div 5/12$	10. $1/3 \div 2/9$

Record your work (Keep-Change-Flip, then simplify):

Explain your thinking

Explain why some quotients are greater than 1 and some are less than 1.

Sentence frame: *The quotient is greater than 1 when the first fraction is ___ than the second.*

★ **Challenge:** Find a card whose quotient is exactly $\frac{1}{2}$. Then write a new problem with a quotient of $\frac{1}{2}$.

ANSWER KEY

Teacher copy — please do not distribute to students.

UNIT 2 • LESSON 2-3 • Reciprocal Card Duel

Standard 6.NS.1

Answers

1. $1/2 \div 1/4$ Answer: 2	2. $2/3 \div 1/6$ Answer: 4
3. $3/4 \div 1/2$ Answer: $1\ 1/2$	4. $5/6 \div 1/3$ Answer: $2\ 1/2$
5. $2/5 \div 3/10$ Answer: $1\ 1/3$	6. $3/8 \div 3/4$ Answer: $1/2$
7. $7/8 \div 1/4$ Answer: $3\ 1/2$	8. $4/9 \div 2/3$ Answer: $2/3$
9. $5/6 \div 5/12$ Answer: 2	10. $1/3 \div 2/9$ Answer: $1\ 1/2$

Teaching notes & look-fors

- Card 6 quotient is $1/2$ ($3/8 \div 3/4$).
- Quotient > 1 when dividend $>$ divisor; < 1 when dividend $<$ divisor.
