

# Divide Whole Numbers by Fractions

Lesson 6-9

**Name:**

**Date:**

**Class:**

---

## My Notes

Level 3 Enrichment

### TODAY'S OBJECTIVES

**Content Objective:** I can divide a whole number by a fraction by multiplying by the reciprocal.

**Language Objective:** I can explain my steps using the words fraction, reciprocal, quotient, and Keep, Change, Flip.

See **Learn It** for the explanation and worked examples, and the **Vocab** tab for the words. These are your notes to fill in and keep.

**Fill in each blank as we go. Use the Word Bank to help you.**

### WORD BANK — FILL EACH BLANK WITH THE BEST WORD

Divide Whole Numbers by Fractions

Whole Number

Fraction

Reciprocal

Keep, Change, Flip

Quotient

Tap any word to see what it means and a picture.

Level 3: try the blanks from memory first, then check the bank.

1

— Find how many fractional groups fit in a whole number by multiplying by the reciprocal.

2

A counting number like 0, 1, 2, or 3 with no fraction or decimal part is a

.

3

A number that shows part of a whole, like  $\frac{3}{4}$ , is a .

4

The fraction you get by flipping a fraction upside down is its

.

5 To divide by a fraction, I  : keep the first number, change  $\div$  to  $\times$ , and flip the second fraction.

6 The answer to a division problem is the .

## Write About the Math

Guided ESOL writing

Use the support level you need. Every level answers the same math question.

### 1. Understand the Question

EXPLAIN

**How does dividing a whole number by a fraction help the detective?**

**Your job:** Answer the question. Use math evidence. Explain how the evidence proves your answer.

*Responde la pregunta. Usa evidencia matemática. Explica cómo la evidencia demuestra tu respuesta.*

## 2. Plan Your Math Words

Check at least two words you will use.

- ☐ **Divide Whole Numbers by Fractions** — Find how many fractional groups fit in a whole number by multiplying by the reciprocal.

*Dividir números enteros entre fracciones — Hallar cuántos grupos fraccionarios caben en un número entero multiplicando por el recíproco.*

- ☐ **Whole Number** — A counting number with no fraction or decimal, like 0, 1, 2, 3.

*Número entero — Un número de contar sin fracción ni decimal, como 0, 1, 2, 3.*

- ☐ **Fraction** — A number that shows part of a whole, like  $\frac{3}{4}$ .

*Fracción — Un número que muestra una parte de un todo, como  $\frac{3}{4}$ .*

- ☐ **Reciprocal** — A fraction turned upside down.

*Recíproco — Una fracción volteada de arriba abajo.*

- ☐ **Keep, Change, Flip** — A way to divide fractions: keep the first, change  $\div$  to  $\times$ , flip the second.

*Mantener, cambiar, invertir — Una manera de dividir fracciones: deja la primera, cambia  $\div$  por  $\times$ , voltea la segunda.*

**Say it first:** Say your idea to a partner or quietly to yourself before you write.

*Di tu idea a un compañero o en voz baja antes de escribir.*

**The detective can set up \_\_\_\_ markers because  $10 \div \frac{1}{4} =$  \_\_\_\_.**

*Di tu respuesta primero: Mi respuesta es \_\_\_\_ porque \_\_\_\_.*

### 3. Build Your Explanation

**Model the parts:** This model shows the parts of an explanation. It does not answer your writing question.

**Claim:** Each whole pound makes 2 half-pound bags, so 4 pounds makes 8 bags.

**Evidence:** Students see that  $4 \div \frac{1}{2} = 8$  and explain there are 2 halves in each whole pound.

**Reasoning:** This evidence connects the definition of divide whole numbers by fractions to the mathematical claim.

#### Start

Most language support

Complete the frames. Use the word bank.

*Completa las oraciones. Usa el banco de palabras.*

- The detective can set up \_\_\_\_ markers because  $10 \div \frac{1}{4} = \underline{\hspace{1cm}}$ .
- My answer is \_\_\_\_.

*Mi respuesta es \_\_\_\_.*

---

---

---

#### Build

Some language support

Write two connected sentences. Use because, so, or but.

*Escribe dos oraciones conectadas. Usa porque, entonces o pero.*

- My claim is \_\_\_\_.
- Mi afirmación es \_\_\_\_.*
- I know because \_\_\_\_.

*Lo sé porque \_\_\_\_.*

- So \_\_\_\_.

*Entonces \_\_\_\_.*

---

---

---

---

#### Explain

### Light language support

Write a claim, give math evidence, and explain your reasoning.

*Escribe una afirmación, da evidencia matemática y explica tu razonamiento.*

- **My claim is \_\_\_\_.**

*Mi afirmación es \_\_\_\_.*

- **My math evidence is \_\_\_\_.**

*Mi evidencia matemática es \_\_\_\_.*

- **This proves \_\_\_\_ because \_\_\_\_.**

*Esto demuestra \_\_\_\_ porque \_\_\_\_.*

---

---

---

## 4. Check Your Explanation

☐

I answered the question.

*Respondí la pregunta.*

☐

I used math evidence: numbers, an equation, a model, or a comparison.

*Usé evidencia matemática: números, una ecuación, un modelo o una comparación.*

☐

I explained how the evidence proves my answer.

*Explicué cómo la evidencia demuestra mi respuesta.*

☐

I used at least two math words.

*Usé por lo menos dos palabras matemáticas.*

☐

I reread complete sentences and punctuation.

*Volví a leer mis oraciones completas y la puntuación.*
