

9-6 Distance on the Coordinate Plane

Treasure Map Navigator | Standard: 6.NS.8 | Color-by-Number Practice

Learning Goal: I can find the distance between two points on the coordinate plane using absolute value.

Directions: Solve each problem. Match each answer to the Color Code. On the next page, color every box with that problem number using the matching color.

Vocabulary: distance, absolute value, coordinate plane

Explain one: I solved problem ___ by ___. Because ___, my answer is ___.
