

Lesson 3.4 Explain Your Thinking

Session 1 · Graphing Ratios on the Coordinate Plane

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

English math word	Spanish
coordinate plane	plano de coordenadas
ordered pair	par ordenado
origin	origen

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

The point (____, ____) means ____ trays hold ____ muffins.

3 · Choose a connected sentence

Because: My conclusion follows because ____.

But: Swaps the coordinates or omits contextual units. may seem reasonable, but ____ shows why it fails.

So: The relationship in my model is ____, so ____.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.

GRADE 6 MATHEMATICS | STUDENT SUPPORT

Session 2 · Interpreting Points on Ratio Graphs

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

English math word	Spanish
unit rate point	punto de tasa unitaria
interpret	interpretar
coordinates	coordenadas

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

The point ____ fits/does not fit because ____ dollars per pound gives ____.

3 · Choose a connected sentence

Because: My conclusion follows because ____.

But: Accepts a point because it is near the line without checking the ratio. may seem reasonable, but ____ shows why it fails.

So: The relationship in my model is ____, so ____.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.
