

Lesson 5.4 Explain Your Thinking

Session 1 · Area of Regular Polygons

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

English math word	Spanish
regular polygon	polígono regular
apothem	apotema
congruent	congruente

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

The relevant faces or regions are ____ because _____. My labeled dimensions show ____, so the measure is _____.

3 · Choose a connected sentence

Because: My conclusion follows because _____.

But: Uses center-to-vertex length as the apothem or drops approximation notation. may seem reasonable, but _____ shows why it fails.

So: The relationship in my model is _____, so _____.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.

GRADE 6 MATHEMATICS | STUDENT SUPPORT

Session 2 · Composite Figures

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

English math word	Spanish
composite figure	figura compuesta
add	sumar
subtract	restar

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

The relevant faces or regions are ____ because _____. My labeled dimensions show ____, so the measure is _____.

3 · Choose a connected sentence

Because: My conclusion follows because _____.

But: Adds a removed region or double-counts overlapping pieces. may seem reasonable, but _____ shows why it fails.

So: The relationship in my model is _____, so _____.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.
