

Lesson 5.8 Explain Your Thinking

Session 1 · Surface Area of Pyramids

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

English math word	Spanish
slant height	altura inclinada
lateral face	cara lateral
apex	ápice

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

The relevant faces or regions are ____ because _____. My labeled dimensions show ____, so the measure is _____.

3 · Choose a connected sentence

Because: My conclusion follows because _____.

But: Uses the vertical height for the triangular face area. may seem reasonable, but _____ shows why it fails.

So: The relationship in my model is _____, so _____.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.

GRADE 6 MATHEMATICS | STUDENT SUPPORT

Session 2 · Lateral Area of Pyramids

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

English math word	Spanish
lateral area	área lateral
surface area	área superficial
slant height	altura inclinada

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

The relevant faces or regions are ____ because _____. My labeled dimensions show ____, so the measure is _____.

3 · Choose a connected sentence

Because: My conclusion follows because _____.

But: Includes the base even when the context excludes it. may seem reasonable, but _____ shows why it fails.

So: The relationship in my model is _____, so _____.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.
