

Lesson 6.2 Explain Your Thinking

Session 1 · Dividing a Fraction by a Fraction

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

English math word	Spanish
reciprocal	recíproco
dividend	dividendo
divisor	divisor
quotient	cociente

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

My model or expression represents ____ because _____. The structure shows ____, so the result is ____.

3 · Choose a connected sentence

Because: My conclusion follows because _____.

But: Reports only complete pieces when the question asks for the numerical quotient. may seem reasonable, but _____ shows why it fails.

So: The relationship in my model is _____, so _____.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.

GRADE 6 MATHEMATICS | STUDENT SUPPORT

Session 2 · Dividing with Mixed Numbers

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

English math word	Spanish
mixed number	número mixto
improper fraction	fracción impropia
simplify	simplificar

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

My model or expression represents ____ because _____. The structure shows ____, so the result is ____.

3 · Choose a connected sentence

Because: My conclusion follows because _____.

But: Rounds up to count a complete object that cannot be made. may seem reasonable, but _____ shows why it fails.

So: The relationship in my model is _____, so _____.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.
