

# Lesson 6.4 Explain Your Thinking

## Session 1 · Writing Numerical Expressions

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

| English math word    | Spanish            |
|----------------------|--------------------|
| numerical expression | expresión numérica |
| evaluate             | evaluar            |
| product              | producto           |

### 1 · Represent the relationship

Point to, draw, or label the important quantities and units.

### 2 · Rehearse with a partner

My model or expression represents \_\_\_\_ because \_\_\_\_\_. The structure shows \_\_\_\_, so the result is \_\_\_\_\_.

### 3 · Choose a connected sentence

Because: My conclusion follows because \_\_\_\_\_.

But: Groups a one-time amount with a repeated amount. may seem reasonable, but \_\_\_\_\_ shows why it fails.

So: The relationship in my model is \_\_\_\_\_, so \_\_\_\_\_.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.

GRADE 6 MATHEMATICS | STUDENT SUPPORT

**Session 2 · Order of Operations with Powers**

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

| English math word   | Spanish                  |
|---------------------|--------------------------|
| order of operations | orden de las operaciones |
| grouping symbols    | símbolos de agrupación   |
| left to right       | de izquierda a derecha   |

**1 · Represent the relationship**

Point to, draw, or label the important quantities and units.

**2 · Rehearse with a partner**

My model or expression represents \_\_\_\_ because \_\_\_\_\_. The structure shows \_\_\_\_, so the result is \_\_\_\_.

**3 · Choose a connected sentence**

Because: My conclusion follows because \_\_\_\_\_.

But: Applies the power to the wrong base or performs all multiplication before division. may seem reasonable, but \_\_\_\_\_ shows why it fails.

So: The relationship in my model is \_\_\_\_\_, so \_\_\_\_\_.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.
