

Lesson 7.2 Explain Your Thinking

Session 1 · Rational Numbers on a Number Line

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

English math word	Spanish
rational number	número racional
integer	número entero
number line	recta numérica

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

The location or direction is ____, but the distance is _____. I know this because _____.

3 · Choose a connected sentence

Because: My conclusion follows because _____.

But: Counts ticks without identifying their scale. may seem reasonable, but _____ shows why it fails.

So: The relationship in my model is _____, so _____.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.

GRADE 6 MATHEMATICS | STUDENT SUPPORT

Session 2 · Opposites of Rational Numbers

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

English math word	Spanish
opposite	opuesto
opposite of the opposite	opuesto del opuesto
rational number	número racional

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

The location or direction is ____, but the distance is _____. I know this because _____.

3 · Choose a connected sentence

Because: My conclusion follows because _____.

But: Changes notation but not location or confuses opposite with reciprocal. may seem reasonable, but _____ shows why it fails.

So: The relationship in my model is _____, so _____.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.
