

Lesson 7.6 Explain Your Thinking

Session 1 · Distance Between Points on a Grid

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

English math word	Spanish
distance	distancia
absolute value	valor absoluto
coordinate plane	plano de coordenadas

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

The location or direction is ____, but the distance is _____. I know this because _____.

3 · Choose a connected sentence

Because: My conclusion follows because _____.

But: Uses the unchanged coordinate or returns a signed distance. may seem reasonable, but _____ shows why it fails.

So: The relationship in my model is ____, so _____.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.

GRADE 6 MATHEMATICS | STUDENT SUPPORT

Session 2 · Comparing Distances on the Plane

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

English math word	Spanish
distance	distancia
quadrant	cuadrante
compare	comparar

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

The location or direction is ____, but the distance is _____. I know this because _____.

3 · Choose a connected sentence

Because: My conclusion follows because _____.

But: Compares grid units with meters without conversion. may seem reasonable, but _____ shows why it fails.

So: The relationship in my model is _____, so _____.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.
