

Lesson 7.7 Explain Your Thinking

Session 1 · Polygons and Perimeter on the Plane

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

English math word	Spanish
polygon	polígono
vertex	vértice
perimeter	perímetro

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

The location or direction is ____, but the distance is _____. I know this because _____.

3 · Choose a connected sentence

Because: My conclusion follows because _____.

But: Confuses coordinate values with side lengths. may seem reasonable, but _____ shows why it fails.

So: The relationship in my model is _____, so _____.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.

GRADE 6 MATHEMATICS | STUDENT SUPPORT

Session 2 · Designing Polygons with Scale

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

English math word	Spanish
scale	escala
area	área
dimensions	dimensiones

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

The location or direction is ____, but the distance is ____. I know this because ____.

3 · Choose a connected sentence

Because: My conclusion follows because ____.

But: Applies a length scale only once to area. may seem reasonable, but ____ shows why it fails.

So: The relationship in my model is ____, so ____.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.
