

Lesson 8.2 Explain Your Thinking

Session 1 · Addition Equations

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

English math word	Spanish
inverse operation	operación inversa
isolate	aislar
one-step equation	ecuación de un paso

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

The value or set ____ makes the statement true because _____. I check it by _____.

3 · Choose a connected sentence

Because: My conclusion follows because _____.

But: Uses an unexplained move-across rule or changes one side only. may seem reasonable, but _____ shows why it fails.

So: The relationship in my model is _____, so _____.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.

Session 2 · Subtraction Equations

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

English math word	Spanish
inverse operation	operación inversa
Addition Property of Equality	propiedad de suma de la igualdad
difference	diferencia

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

The value or set ____ makes the statement true because _____. I check it by _____.

3 · Choose a connected sentence

Because: My conclusion follows because _____.

But: Subtracts again to solve a subtraction equation. may seem reasonable, but _____ shows why it fails.

So: The relationship in my model is _____, so _____.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.
