

Lesson 8.3 Explain Your Thinking

Session 1 · Multiplication Equations

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

English math word	Spanish
coefficient	coeficiente
inverse operation	operación inversa
Division Property of Equality	propiedad de división de la igualdad

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

The value or set ____ makes the statement true because _____. I check it by _____.

3 · Choose a connected sentence

Because: My conclusion follows because _____.

But: Multiplies by the coefficient instead of dividing or expects only whole-number solutions. may seem reasonable, but _____ shows why it fails.

So: The relationship in my model is _____, so _____.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.

GRADE 6 MATHEMATICS | STUDENT SUPPORT

Session 2 · Division Equations

Use the “Model, reason, and explain” task in your Guided Notes. Keep the same mathematical task; choose only the support you need.

English math word	Spanish
divisor	divisor
Multiplication Property of Equality	propiedad de multiplicación de la igualdad
equal groups	grupos iguales

1 · Represent the relationship

Point to, draw, or label the important quantities and units.

2 · Rehearse with a partner

The value or set ____ makes the statement true because _____. I check it by _____.

3 · Choose a connected sentence

Because: My conclusion follows because _____.

But: Divides again or makes an unconditional total/share comparison. may seem reasonable, but _____ shows why it fails.

So: The relationship in my model is _____, so _____.

Check: I answered the task, included mathematical evidence, and explained the connection. Next time I can try with one fewer support.
