▾ Question 1

Type: Fill-in-the-Blank DOK: 1 Standards:

CCSS.Math.Content.6.RP.A.1

 Points:

1

Martin is laying out tiles to make a design. He will use 1 black tile for every 4 white tiles to have a total of 20 tiles in the design. How many of each color tile will Martin use? Enter the answers.

white tiles

black tiles

▾ Question 2A 🔗 2B

Type: Equation Entry DOK: 2 Standards:

CCSS.Math.Content.6.RP.A.1

 Points:

1

The table shows the number of students in different activities at Jennie’s school.

School Group	Number of Students
Marching Band	40

Drama Club	27
Choir	25
Academic Team	18

Find the ratio of the number of students in the choir to the number of students in the marching band. Express the answer as a fraction in simplest form. Enter the answer.

✓ **Question 2B** **2A**

Type: Short Answer **DOK:** 2 **Standards:** CCSS.Math.Content.6.RP.A.1

Points: 1

Explain the meaning of the simplified ratio that you wrote in Part A. Enter the answer.

✓ **Question 3**

Type: Fill-in-the-Blank **DOK:** 1 **Standards:** CCSS.Math.Content.6.RP.A.2

Points: 1

Orlando skips rope 135 times in 45 seconds. Write this rate as a unit rate. Enter the answer.

skips per second

✓ **Question 4A** **4B**

Type: Fill-in-the-Blank **DOK:** 2 **Standards:** CCSS.Math.Content.6.RP.A.2

Points: 1

Snacks and More sells a 3-pound bag of mixed nuts for \$17.25. Healthy Snacking sells a 2.5-pound bag of mixed nuts for \$13.75.

What is the unit price at each store? Enter the answers.

Snacks and More: \$ per pound

Healthy Snacking: \$ per pound

Question 4B 4A

Type: Multiple Choice DOK: 2 Standards: CCSS.Math.Content.6.RP.A.2

Points: 1

Based on unit prices, the nuts from which store are a better buy? Choose the correct answer.

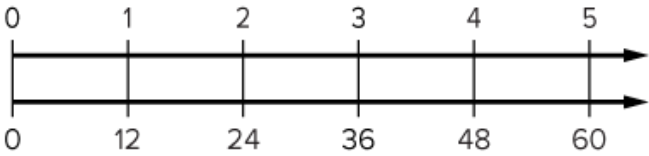

- ☐ The Snacks and More nuts are a better buy because the unit price is lower.
- ☐ The Healthy Snacking nuts are a better buy because the unit price is lower.
- ☐ The Snacks and More nuts are a better buy because you get a bigger bag.
- ☐ Buying the mixed nuts from either store would be equally as good.

Question 5

Type: Cloze DOK: 2

Points: 1

Jose earns \$39 in 3 hours. The double number line shows the amount Melanie earns. Choose the correct answers to complete the sentence.

☒ earns \$ ☒ more per hour.

Question 6A 6B

Type: Fill-in-the-Blank DOK: 2 Standards: CCSS.Math.Content.6.RP.A.3.a

Points: 1

A survey found that for every 3 people who preferred vanilla yogurt, there were 2 people who preferred strawberry yogurt. Enter the correct answers to complete the table.

Vanilla	9	21	33	
Strawberry

Question 6B

🔗 6A

Type: Essay DOK: 2 Standards:

CCSS.Math.Content.6.RP.A.3.a

Points:

1

Explain how you determined your answer. Enter the answer.

▼

Question 7

Type: Coordinate Grapher DOK: 2 Standards:

CCSS.Math.Content.6.RP.A.3.a

Points:

1

Len pours 2 cups of water in each glass. Plot the points on the graph to show the numbers of cups of water for 1, 2, 3, 4, and 5 glasses.

▼

Question 8A

🔗 8B

Type: Fill-in-the-Blank DOK: 2 Standards:

CCSS.Math.Content.6.RP.A.3.a

Points:

1

Jenny is comparing the amount of protein in two different brands of beans. Brand A advertises 4 grams of protein per serving. The amount of protein per serving in Brand B is shown in the table.

Brand B			
Number of Servings	2	3	4
Protein (g)	10	15	20

Enter the answers to complete the ordered pairs for points on a graph that show the amounts of protein for 1, 2, 3, and 4 servings of Brand A and Brand B.

Brand A:

(1,)

(2,)(3,)(4,)

Brand B:

(1,)(2,)(3,)(4,)✓ **Question 8B** **8A****Type:** Fill-in-the-Blank **DOK:** 2 **Standards:** CCSS.Math.Content.6.RP.A.3.aPoints: 1

Which brand offers the greater ratio of grams of protein to servings of beans? Enter the answer.

Brand ✓ **Question 9****Type:** Fill-in-the-Blank **DOK:** 2 **Standards:** CCSS.Math.Content.6.RP.A.3.bPoints: 1

Amelia rides her bike 4 miles in 32 minutes. Enter the answers to complete the sentences.

The unit rate is minutes per mile.At this rate, Amelia would ride miles in 48 minutes.✓ **Question 10**

Type: Essay **DOK:** 3 **Standards:** CCSS.Math.Content.6.RP.A.3.b**Points:** 1

Heather burns 210 calories by walking 45 minutes at the gym. After this, she burns 140 calories by lifting weights for 30 minutes. Are these rates equivalent? Explain your reasoning. Enter the answer.

✓ **Question 11****Type:** Multiple Choice **DOK:** 2 **Standards:** CCSS.Math.Content.6.RP.A.3.d**Points:** 1

Reggie does leg presses with 80-kilogram weights. Which is the best approximation for the number of pounds that Reggie uses for his leg presses? Access the reference sheet for measurement conversions. Choose the correct answer.

☐ 36 pounds☐ 44 pounds☐ 144 pounds☐ 176 pounds✓ **Question 12A** ⓘ 12B**Type:** Essay**Points:** 2

A store sells notebooks and folders in a ratio of 5 : 3.

A student created the tape diagram below to represent the ratio.

The student then used the ratio to determine how many folders there are when the store has 30 notebooks.

Student's Tape Diagram

Notebooks

--	--	--	--	--

Folders

--	--	--

The student says,
"There are 2 more notebooks than folders, so every group has 2 extra notebooks."

Later, the store has 30 notebooks.
 The student determines there must be 28 folders because they subtracted 2.

Explain why the student's reasoning is incorrect. Use the tape diagram below to determine the correct number of folders when the store has 30 notebooks. Show your work by labeling the tape diagram.

✓ **Question 12B** ⓘ 12A

Type: Drawing

Points:

1

Show your work by labeling the tape diagram.

✓ **Question 13**

Type: Fill-in-the-Blank **DOK:** 1 **Standards:** CCSS.Math.Content.6.RP.A.3.d

Points:

1

Miguel rides his bike to the park. The park is 1,500 feet away. How many yards did Miguel ride his bike?
 Enter the answer.

yards
