

Determine the Area of Trapezoids

Lesson 5-3

Name: Type your name

Date: Today's date

Class: Class period

TODAY'S OBJECTIVES

Content Objective: I can find the area of a trapezoid using the formula $A = \frac{1}{2}(b_1 + b_2) \times h$.

Language Objective: I can explain my steps using the words trapezoid, base, height, and area.

See **Learn It** for the explanation and worked examples, and the **Vocab** tab for the words. These are your notes to fill in and keep.

Fill in each blank as we go. Use the Word Bank to help you.

WORD BANK – FILL EACH BLANK WITH THE BEST WORD

Trapezoid

Parallel

Base 1 (b1)

Base 2 (b2)

Height

Perpendicular

Area

Decompose

Right trapezoid

Tap any word to see its meaning and a picture.

Level 3: try the blanks from memory first, then check the bank.

1

A quadrilateral with exactly one pair of parallel sides is a

2

Two sides that stay the same distance apart and never meet are

3

One of the two parallel sides of a trapezoid is

4

The other parallel side of a trapezoid is

5

The perpendicular distance between the two parallel bases is the

6 Two lines that meet at a 90° square corner are .

7 The amount of flat space inside the trapezoid is its .

8 Breaking a figure into simpler shapes is called .

9 A trapezoid with two square corners is a .

Write About the Math

How many bags of concrete does the builder need?

¿Cuántas bolsas de concreto necesita el constructor?

Say your answer to a partner first. Then write it, using at least two of these words:

☐ **Trapezoid**
Trapecio

☐ **Parallel**
Paralelas

☐ **Base 1 (b1)**
Base 1 (b1)

☐ **Base 2 (b2)**
Base 2 (b2)

☐ **Height**
Altura

Model: *We use both bases because the top and bottom are different lengths.* — Students explain a trapezoid has two parallel sides of different lengths, so using only one would over- or under-count the area; strong answers mention averaging the bases.

Start

Complete the frames. Use the word bank.

Completa las oraciones. Usa el banco de palabras.

- **The driveway's area is ____ sq ft because $A = 1/2 \times (\text{ } + \text{ }) \times \text{ }$. He needs ____ bags because ____ / 6 = ____.**

- **My answer is ____ because ____.**

Mi respuesta es ____ porque ____.

Build

Write two connected sentences. Use because, so, or but.

Escribe dos oraciones conectadas. Usa porque, entonces o pero.

- **My claim is ____.**

Mi afirmación es ____.

- **My evidence is ____, so ____.**

Mi evidencia es ____, entonces ____.

Explain

Write a claim, give math evidence, and explain your reasoning.

Escribe una afirmación, da evidencia matemática y explica tu razonamiento.

☐ I answered the question.

☐ I used math evidence: numbers, an equation, or a model.

☐ I used at least two math words.
