Name_____ Date_____ Period_____

UNIT 4 · END-OF-UNIT ASSESSMENT - FORM A · LEVEL 1

Working with Percents

Lessons 4.1–4.5. Show your work and label units. Use the model when there is one.

WORD BANK

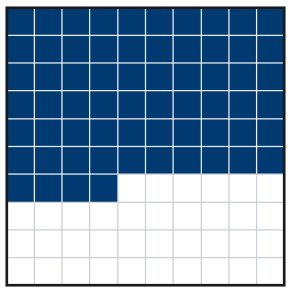

percent (por ciento) – out of 100
whole (el entero) – all of it = 100%
part (la parte) – some of the whole
rate (la tasa) – how many out of how many
estimate (estimar) – a close answer with friendly numbers

PERCENT HELP							
	1/10 = 0.1 = 10%	1/5 = 0.2 = 20%	1/4 = 0.25 = 25%	1/3 = about 0.333 = about 33.3%	1/2 = 0.5 = 50%	3/4 = 0.75 = 75%	1 = 1 = 100%

SHOW WHAT YOU KNOW

show your work · label units

1. Seats. Each square is one seat. The shaded squares are full seats. (2 points)

Step 1 Count the shaded squares. Each square is 1%.

Step 2 Full + empty = 100%.

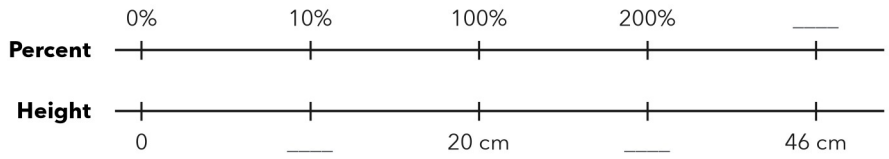

a. What percent of the seats are full? _____ %

b. What percent are empty? _____ %

2. Sunflower. A sunflower was 20 cm tall in June. In July it is 46 cm tall. July's height is what percent of June's height? (3 points)

Step 1 The first amount is 100%. Find 10% (or 25%) of it.

Step 2 How many of those make the new amount?

Show your work.

Answer_____ %

3. Same Value. Complete the table. (3 points)

Step 1 Percent so decimal: move the point two places left.

Step 2 Fraction so percent: make the bottom number 100.

Fraction	Decimal	Percent
3/20		
	0.8	
		62%

4. Select All. Which numbers are greater than 0.6? Check all that apply. (2 points)

Step 1 Write every number as a percent first.

Step 2 Check only the ones that are more.

- ☐ **A** 5/8
- ☐ **B** 58%
- ☐ **C** 0.65
- ☐ **D** 3/5
- ☐ **E** 61%

5. Games Won. A team won 17 of 40 games. Between which two benchmarks (0%, 25%, 50%, 75%, 100%) is that? Which one is it closer to? (2 points)

Step 1 Find 25% and 50% of the total.

Step 2 Is the count between them? Which is closer?

Show your work.

Between / closer to_____

6. Estimate. Estimate 31% of 590. Show the friendly numbers you used. (2 points)

Step 1 Round the percent and the number to friendly numbers.

Step 2 Find 10%, then build the percent.

Show your work.

About_____

7. Sale. A $45 game is 20% off. How much money do you save? What is the sale price? (3 points)

Step 1 Find 10% of the price. Build the percent off.

Step 2 Price − savings = sale price.

a. You save _____ dollars

b. Sale price _____ dollars

Show your work.

8. Free Throws. Kai made 49 of 70 free throws. Lena made 18 of 24. Who has the better rate? Use percents. (3 points)

Frame ___ *made* ___*%.* ___ *made* ___*%.* ___ *has the better rate because* ___.

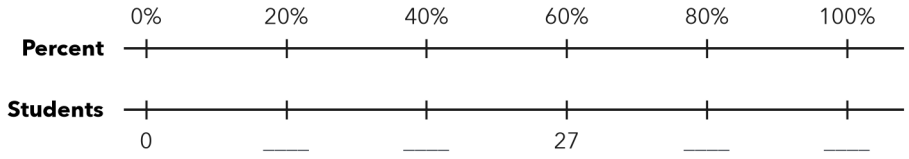

Show your work.

Better rate_____

9. Club. 27 students is 60% of the club. How many students are in the club? Complete the double number line. (3 points)

Step 1 Find 20%: divide the known amount by how many 20% jumps.

Step 2 Count up by that amount to 100%.

Show your work.

Whole_____ students

10. Bikes. A store sold 42 bikes. That is 35% of all its bikes. Which equation finds t, the total number of bikes? Then solve it. (3 points)

Step 1 The total is unknown, so the percent multiplies t.

Step 2 Divide the part by the decimal.

A 0.35 × 42 = t **B** 0.35t = 42 **C** 42t = 35 **D** t = 42 − 35

t =_____

Total: _____ / 26 points
