Answers and Scoring

10 items · 26 points · teacher-made classroom check aligned to Maryland 6.AT.4 (not a standardized or publisher test)

BLUEPRINT

lesson, depth of knowledge and points for each item

#	Lesson	DOK	Pts	Answer
1	4.1 S1	1	2	a. 64% b. 36%
2	4.1 S2	2	3	230%: 20 cm = 100%, so 2 cm = 10%; 46 cm = 23 × 10% = 230%.
3	4.2 S1	1	3	Row 1: 0.15, 15% · Row 2: 4/5, 80% · Row 3: 31/50, 0.62
4	4.2 S2	2	2	5/8 (62.5%), 0.65, 61%. Not 58% (less) or 3/5 (equal).
5	4.3 S1	2	2	Between 25% (10 of 40) and 50% (20 of 40); closer to 50%. (Exact 42.5%.)
6	4.3 S2	2	2	About 180: 30% of 600 = 180. (Exact 182.9.) Accept 177–186 with friendly numbers shown.
7	4.4 S1	2	3	a. $9 (10% = $4.50, so 20% = $9) b. $45 − $9 = $36
8	4.4 S2	2	3	Kai 70%, Lena 75% so Lena. She made fewer shots but a greater percent.
9	4.5 S1	2	3	45 students: 60% = 27 so 20% = 9; 100% = 5 × 9 = 45. Line: 9, 18, 27, 36, 45.
10	4.5 S2	2	3	**B** (0.35t = 42)

SCORING AND WHAT TO WATCH FOR

accept equivalent methods and drawings

1. **2 pt** · Full percent; Empty percent (adds to 100%)
   Watch for: Empty = 64% again: forgets the two parts make 100%.
2. **3 pt** · Uses the first amount as 100%; Correct unit percent (10% or 25%); 230%
   Watch for: About 43% (20/46): uses the July height as the whole.
3. **3 pt** · 1 point per complete row (fraction in simplest form)
   Watch for: 0.8 = 8%: decimal point not moved two places.
4. **2 pt** · All correct choices checked; No wrong choices checked
   Watch for: Checks 3/5: equal is not greater.
5. **2 pt** · Correct pair of benchmarks; Correct closer benchmark with a reason
   Watch for: 17%: uses the count as the percent.
6. **2 pt** · Friendly numbers shown; Reasonable estimate
   Watch for: 18 or 1,800: place-value slip finding 10% of 600.
7. **3 pt** · Correct method for the percent of the price; Savings; Sale price
   Watch for: Answers $25 (45 − 20): subtracts the percent as dollars.
8. **3 pt** · First percent; Second percent; Correct choice explained with percents, not counts
   Watch for: Kai, because 21 > 18: compares counts, not rates.
9. **3 pt** · Finds 20% (or 10%); Completes the line; Correct whole
   Watch for: 16.2 (60% of 27): finds a percent of the part instead of the whole.
10. **3 pt** · Correct equation; Solves correctly; Labels the answer
    Watch for: A: multiplies the part by the percent (treats the part as the whole).

Level 1 form: same items, numbers and answers, with a word bank, a percent help strip, step frames and 12-point type. Score it the same way.

After scoring: sort errors into wrong whole/model, calculation slip, or explanation. Reteach with that lesson's Teaching Support Guide, then use its fresh check. Do not reuse a form the student has seen.
