UNIT 4 · SYNTHESIS TASK

Fundraiser Goals

Use what you learned in all five lessons. Show a model or an equation for each part.

The art club needs $240 for supplies. So far it has raised 35% of its goal.

1. **Part A.** How much has the art club raised? How much more does it need?

   a. Raised _____ dollars

   b. Still needed _____ dollars

Show your work.

2. **Part B.** Check Part A with an estimate. Use a benchmark percent.

Show your work.

About_____

3. **Part C.** The club sells raffle tickets for $10 each. How many tickets must it sell to raise the rest of the money? Explain your decision.

Show your work.

Tickets_____

4. **Part D.** The music club raised $90. That is 45% of its goal. What is its goal? Which club is closer to its goal? Explain using percents.

   a. Music club goal _____ dollars

   b. Closer to its goal _____
